MESSAGE FROM CHAIRMAN AND CEO

Dear shareholders, customers, partners and colleagues,

Keeping up with the pace of economic transformation, in 2018, SCB made important progress and changes in business operation, governance and financial capacity to sharpen its edge in the competitive financial market to meet customer needs. These would surely be a solid foundation for SCB's sustained development.

After major milestones, SCB has gradually asserted its status in Vietnamese financial market, obtaining customers' trust and support. Such achievements are the result of successful collaboration of more than 7,200 colleagues, customers' companion, partners' close cooperation and shareholders' trust.

SCB status became more distinctive in 2018, engraved with innovation, diverse product portfolio, improved service quality, modern banking technology and dynamic staff. SCB has been spreading out with a network reaching 28 large provinces/cities, benefiting customers, shareholders, employees and contributing to the country's development.

Stable growth in business operation: At the end of 2018, SCB maintained its status as the top 5 biggest Vietnamese commercial banks with total assets of VND508,954 billion, charter capital of VND15,232 billion, customer deposits reached VND418,338 billion and loans reached VND301,892 billion. In 2018, there was a trendy growth in non-interest revenues and in personal customer base within SCB network. Revenues in credit cards, money remittance, digital banking, insurance products, international payment and trade finance continued to generate large non-interest incomes. Total net non-interest revenues reached VND1,746 billion, increasing VND230 billion - 15.2% compared to 2017, in which the net amount from service was VND1,299 billion, an impressive increase of 49.2% compared to the previous year.

Reforming organizational structure and building a highly skilled workforce: Last year, there were significant changes in SCB organizational structure towards lean governance which simplifies procedures, leverages resources usage and reduces potential risks. These intentions have been practiced by upgrading and establishing Credit Reappraisal and Business Support Divisions, Premier Banking Department under Retail Banking Division at the end of 2018 and International Transaction Banking and Card & Digital Banking Divisions in early 2019. These new factors strengthen the business operation as well as governance capacity, laying a platform for SCB to conquer new targets in 2019.

At the same time, SCB also focused on building a competent human resource pool - the most valuable

asset of SCB - to keep up with the development pace. Last year, SCB recruited approximately 2,000 new employees for vacant positions, regularly provided standardized training courses to SCB staff of all levels from senior leaders to all other staff.

Developing banking technology and optimizing operation: Together with business operation, SCB executed on large investments in advanced technology in all bank aspects to upgrade management system, customer service and create our edge in the Industry 4.0 era. Accordingly, SCB successfully went live with Core Banking and Digital Banking systems, latest version of Flexcube 12.4 and Treasury - Fis Front Arena project, marking a steppingstone in banking development. These high-tech backgrounds brought about more modern product packages and excellent experience while improving governance competency and security. As a result, SCB was able to attract more customers, capture more market share, benefit customers and itself.

Being well perceived by domestic and overseas organizations: With relentless effort, SCB has honorably received many prestigious awards such as: Best Commercial Bank Vietnam 2018 by World Finance, Outstanding innovative banking product-service award 2018 by VNBA and IDG, Best Bank for Information Technology Vietnam 2018 by Global Banking & Finance Review, etc. These are vivid evidences for rightfully strategic directions in the past and driven motivations for the bank to grow further and best serve customers.

Given achievements from rightful strategy of the Board of Directors, close supervision from the Board of Management and united staff, SCB has been well-prepared for new adventures on the path to success, assert its status and step firmly on the further path in 2019.

On behalf of the Board of Directors, the Board of Management, we would like to send to all colleagues sincere appreciation for your constant support. We believe and strive to become the best choice to bring the highest values to our customers, shareholders and partners.

Wish you all good health and success.

Sincerely,

CHAIRMAN

CEC

Mr. DINH VAN THANH

Mr. VO TAN HOANG VAN

Given achievements from rightful strategy of the Board of Directors, close supervision from the Board of Management and united staff, SCB has been well-prepared for new adventures on the path to success, assert its status and step firmly on the further path in 2019.

_

GENETIC CHANGE IN BANKING TECHNOLOGY

In the age of Industry 4.0, technology is playing a crucial role in sustainability and development of a bank, especially creating a bank's differentiated status in the financial market. Therefore, this industry has seen a great deal of investments in recent years.

In 2018, SCB executed many large investments and applied modern technologies in the banking operation. As a result, many technology-based products and service were launched to deliver an excellent experience to customers. In addition to that, governance capacity has been improved to enhance transaction security and more benefits to customers.

UPGRADE AND GOLIVE OF CORE BANKING AND DIGITAL BANKING WITH THE LATEST **VERSION FLEXCUBE 12.4 OF ORACLE**

It is extremely necessary for the bank to upgrade its Core Banking and Internet Banking systems. This will ensure SCB is able to take an edge in competition and offer more benefits to customers in all transactions. The new systems will operate smoother and safer, promising to enhance governance as well as transactional aualitv.

Thanks to the new systems with high compatibility with other systems, resulting to actively adapting to changes in business operation. The upgraded Core Banking and Digital Banking are expected to introduce newly high-tech-equipped products and services, increasing competitiveness and meeting diverse demands of customers.

Such investments in technology created newbrand utilities to customers. Most of the banking processes will become automatic, operations on screens and transactions at counters will be simplified and faster. Moreover, the new systems will support tellers in processing data, eliminating errors and preventing leaked information. They support the compatibility with the interface of Digital Banking on all browsers and electric devices, enabling customers to be more comfortable in transactions.

SUCCESSFULL DEPLOYMENT OF THE TREASURY - FIS FRONT ARENA PROJECT, MARKING A NEW DEVELOPMENT IN TREASURY **BUSINESS**

In order to improve governance capacity of the bank in the economic integration era, in 06/2018, SCB officially deployed and went live Treasury - Fis Front Arena project. This has been considered the core project of SCB since 2017.

SCB is currently one of the first banks in Vietnam to operate the Treasury system as per international standards. This marked an important milestone in strengthening SCB's competitiveness in treasury operation in the financial market. Operating this new system, SCB may grasp the best market opportunities, broaden its operation scope and efficiently operate the treasury business to maximize the

INTRODUCTION OF A NEW WEBSITE WITH MORE UTILITIES

After a period of upgrading, on 27/03/2018, SCB eventually introduced its new website with many features and utilities: modern designs; compatibility; easy manipulation; fast search process, etc. Those features increased customers' convenience in being updated on products, services, new promotional programs.

- The new website interface is very simple, vivid, well-organized and more user-friendly. Thus, customers, partners find it more convenient to search information on website as well as getting advices from our banking
- In addition, the new website is compatible with all devices such as computers, smartphones, and tablets. This helps to make transactions more seamless and time-efficient.
- Via HTTPS data transmission mode (Hypertext Transfer Protocol Secure) encrypted between computers and website, customer information will be kept confidential. Especially, with this new website, customers can open new deposit accounts, new cards or other digital banking services like Mobile Banking, Internet Banking.
- Accessing SCB's website with GPS-enabled mobile devices, customers can easily look up transaction (sub) branches and ATMs nearby.

SCB expects that the new user-friendly website will become another fast and convenient channel to provide useful information on products and advices to customers.

UPGRADING eBANKING WITH ADVANCED BANKING TECHNOLOGY

In a strategic response to market trend and the target of becoming a modern retail bank, SCB eBanking was introduced to apply new technology in developing the products and services. This is believed to help customers save their time, cost in making transactions and facilitate SCB to surpass its rivals. In the trend of providing all-in-one financial packages and exclusive experience to customers, SCB upgraded new features of its eBanking products:

SERVICE	ADDITIONAL BENEFITS TO CUSTOMERS
	- Deliver a high-tech experience: Customers can make transfer or payment verified by QR code or fingerprint.
Upgrade of Mobile Banking	- Transactions are easily made anytime anywhere via an application on smartphones, tablets.
	- Easy and user-friendly mobile banking on smartphones are characterized with high integration and best transactional experience.
SMS Banking	- Accessing SMS Banking, changes on account balance will be notified via messages. Besides, customers can easily get information on account, forex and interest rates or pay mobile top-up, mobile post-paid service.
	- Furthermore, customers can look for nearby ATMs or receive latest promotional news from SCB via SMS Banking.
Internet Banking	- With Internet Banking, customers can make trace, payment or termed deposits via any Internet-connected devices. Customers can also make transfers within or outside SCB's network up to VND10 billion/day.
	- Increase transactional security. Transactions can be verified and sent via SMS or token at customers' choice.
Integrating e-wallet to payment application	- SCB upgrades eBanking system with the possibility of integrating into e-wallets and payment application to provide a better experience to customers. The applications introduced in 2018 include QR Code, Samsung Pay, Moca e-wallet (Grab) and AirPay e-wallet (Foody and Shopee).

APPLYING PO WITH PROMINENT FEATURES ON ERP

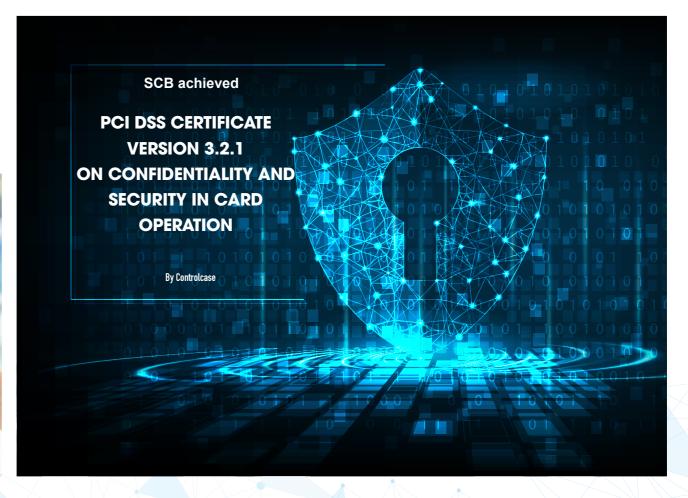

To promptly and accurately update budget data, systemize all purchasing transactions of the bank, in 08/2018, the PO on ERP was officially put into operation. By carrying out the self-contained purchasing procedure, SCB can be able to actively manage the purchasing activities, prevent losses and improve productivity.

THIRD YEAR IN A ROW, SCB ACHIEVED PCI DSS CERTIFICATE WITH MOST STRINGENT STANDARDS ON CONFIDENTIALITY AND SECURITY IN CARD OPERATION

This is the certificate with the strictest security standards in payment card issuance and acceptance set up by the Payment Card Industry Security Standards Council. This is proof of SCB implementing its commitment in securing transactions of customers and partners, improving service quality and SCB's status in the financial market.

In compliance with PCI DSS's security standards, SCB reinforced the capability to secure the processing and storing card data, eliminating security vulnerability, financial & data loss for for the bank and customers in card transaction and other financial transactions.

▼ INNOVATIVE SOLUTIONS OF PRODUCTS & SERVICES. AND DISTINCTIVE TRANSACTION EXPERIENCE

To expand customer base and deepen customer relationship, SCB has continuously executed intensive research to develop new products, services to customers and create distinctive experience.

INTRODUCTION OF "SCB SHORT TERM DEPOSIT CERTIFICATE"

On 15/5/2018, SCB officially introduced the product "SCB short term deposit certificate" with outstanding features in interest rates and flexibility in depositing and withdrawing. As of 31/12/2018, deposits of this product amounted to nearly VND20,000 billion with more than 24,000 participants, contributing to 1/3 of total deposit growth. The attraction of this product remains high. With this deposit certificate, customers can control the flows of their deposits to maximize the deposit yields.

These certificates were termed 189 days with an interest rate of 6.8% for 6 denominations: VND100 million, VND200 million, VND500 million, VND1 billion, VND2 billion, VND5 billion, Moreover, these certificates could be easily transferred by selling, donating, exchanging, etc. with unchanged interest rates.

Due to those prominent benefits, Global Banking and Finance Review awarded the title "Best Deposit Certificate of the Year Vietnam 2018" to SCB. Another award given to this product was "Outstanding innovative banking product-service award 2018" by

DELIVERY OF PRODUCTS & SERVICES IN PACKAGES

With the motto "One stop for all services", during the past 2 years, SCB has constantly attempted to improve service quality, diversify and deliver financial product in packages, apply modern technology to meet all customer needs and increase income for the bank

To reinforce account management, quicken transaction and reduce costs, SCB introduced many tailored all-in-one products on eBanking to satisfy diverse needs of financial transactions. These packages provide customers with many interesting promotional offers:

- For personal customers, SCB introducted the 3X account packages including normal account, multifunction account and Loc Phat account that link with 3 services: current account, eBanking (SMS Banking and/or Mobile Banking and/or Internet Banking) and SCB MasterCard Debit, With 3X, customers can manage their accounts, control cash flows and transactions on Internet Banking and Mobile Banking at any time, anywhere with the highest security.
- For corporate customers, SCB offers "S-Pro account" package, a combination of the current account and services on SMS Banking, Internet Banking, SCB C-Mastercard Debit and account statement via email. Accordingly, corporates can efficiently manage finance, control cash flows and/ or verify the account daily/weekly/monthly, make money transfer, payment to partners within SCB system or to other banks anytime, anywhere. Additionally, with SCB C-Mastercard, corporate customers can pay for business fees, domestic and overseas business trips at millions of POS worldwide, purchase goods and services on all e-commerce websites such as Amazon, Lazada.vn, Microsoft Store, etc.

SCB offered actual values to customers by including many benefits and preferences. The growth in transactions is the clearest proof for customers' increasing trust in SCB's products and services, contributing long-lasting value to the bank, driving SCB - a modern bank - go further in future.

MULTIPLE PAYMENT METHODS FOR CARDHOLDERS

SCB implemented another payment method "Contactless payment - one touch payment" to simplify the payment process. With this method, customers do not need to handover their cards to the seller for POS scanning as in the traditional method. They only need

to touch or wave the card in front of the POS screen to make a payment. This helps increase security and confidentiality for customers, avoiding cases of lost, fraudulent or copied data.

ELECTRIC INVOICE IMPLEMENTATION

From 01/08/2018, SCB introduced "Electric Invoice" within SCB network, offering an efficient, cost-saving and safe invoice solution. At the same time, to provide all-in-one packages and encourage customer experience, SCB implemented the query of electric invoice on Internet Banking for corporate customers, conveniently helping them be more effective in making accounting, verification, thereby limiting risks and reducing costs related to invoices.

TO DEVELOPING LEADERSHIP COMPETENCY

CHANGE TO TAKE THE LEAD

During 2012-2017, together with significant changes in business strategies "Becoming a leading retail bank in Vietnam", the HR management at SCB has witnessed remarkable transformation, creating more career opportunities. Many training programs of leadership have been performed since last year.

PROGRAM "DEVELOPING LEADERSHIP COMPETENCY"

In 2018, to improve governance efficiency, SCB cooperated with Crestcom International, a leading American company in developing leadership skills to organize the training program "Developing leadership competency" for intermediate and senior leaders at branches and Head Office. This program created many positive improvements.

The training program not only developed the leaders' skills but also ignited their potentials in leadership, then improving their self-esteem in their work and daily life.

TRAINING PROGRAM "SCB NEXT GENERATION - SNG"

With the purpose of developing a generation to hold the managerial positions in the future, SNG is designed to perfect and develop competency of all SCB staff. This hopes to create more opportunities and movivations for internal staff and a shortcut in career path for young and potential staff.

SCB'S EFFORTS FOR **DEVELOPMENT AND IMPROVEMENT**

AN IMAGE OF A PROFESSIONAL BANK, IMPROVEMENTS IN SERVICE QUALITY, ENHANCING SCB'S STATUS

With efforts in improving service quality in 2018, SCB honorably received the award

"Best Customer Service Bank Vietnam 2018"

from Global Business Outlook. In 2019, SCB is directed to improve customer service quality in the entire SCB network with the purpose that each employee will create

CUSTOMER SERVICE

Embracing customer-centered operations, SCB has always striven for the high quality of customer service. All service driving factors, especially including staff quality, have been continuously improved by

First, all employees received necessary training courses on products and customer serving skills. The courses provided basic knowledge, actual experience and updated methods from experts in customer service.

Second, SCB issued a Customer Service Assessment Kit including regulations on physical appearance, behavioral manners, service quality, etc. to build a uniform set of customer service standards.

Third, SCB regularly maintained the monitoring of customer service activities in various methods such as cameras, secret customers, customer service management activities to have a more practical insight into customer service quality so that SCB can make timely adjustments.

Fourth, SCB conducted many satisfaction surveys and used SCB fanpage or email as additional channels to assess customer satisfaction and make necessary improvements.

And more importantly, SCB carried out many enhancements of customer service procedures, shortening transaction process to bring best experiences to customers.

○ PRODUCT-SERVICE QUALITY

SCB diversified its products by introducing new investment channels like Short term deposit certificate and corporate bonds featured with unparalleled interest rates and flexible transferability.

Together with single financial solutions, in 2018, SCB introduced many packaged products and services with new experiences such as:

- The multi-function package linking 3 services: current account, eBanking (SMS Banking/Mobile Banking/Internet Banking) and SCB MasterCard Debit, providing all-in-one financial solutions.
- "S-Pro account" package, a combination of the current account and services on SMS Banking, Internet Banking, SCB C-Mastercard Debit and email statement. Accordingly, corporates can efficiently manage finance, control cash flows and/or verify the account daily/weekly/monthly, remit money to partners within SCB system or to other banks anytime,

anvwhere.

- "Dac Loc Tai savings" product combined with current account to increase the deposit interest rate
- Insurance products linked with talk shows on benefits of healthy lifestyle and protection against financial risks.

Besides, SCB entered into partnership with other service partners to expand service portfolio and enhance transaction security. Last year, SCB introduced electric invoices, digital signatures, QR Code on savings books and smart payment methods such as Samsung Pay, QR Pay, electric wallet, ect.

OTHER UTILITIES

SCB invested in facilities, branched out transaction network to provide more access to customers. In 2018, SCB opened 02 branches and 09 transaction offices at some provinces/cities and many other office relocations.

All newly well-equiped offices were located in densely populated and convenient areas centers to give easier contacts and better experience to customers.

To be available to customers anytime, anywhere, SCB developed modern distribution channels. The digital banking system upgraded with technology-based functions helped customers not only experience better utilities but also save transaction costs.

SCB - A PLACE WHERE EACH INDIVIDUAL EMPLOYEE GROWS BETTER

TOP 5 best places to work among Vietnam banks

In 2018, SCB was listed in "Top 5 best places to work among Vietnam banks" due to its huge effort in developing human resources, improving welfare policies and building a professional and modern working environment. In 2018. SCB hired nearly 2,000 new employees, contributing to total employees of 7,258, in which sales staff composed 44%. This resource is core to lead SCB to the path of becoming a leading modern retail bank in Vietnam.

MERITORACY

SCB always highly appreciates staff's contributions by making a clear career path, performing raise/ promotion assessment every 06 months/year and appointments of management positions to create working motivations. In 2018, SCB continued to implement KPIs Standard to Business support units and detailed KPIs Standard to each Head Office individual.

In addition, SCB was planning to apply KPIs Standard to sales staff with new business objectives from 01/01/2019 and apply KPIs to all staff as per job positions. Such implementations were initially successful in the process of building core competencies to all SCB staff.

O STAFF'S MORAL AND CULTURAL VALUES

SCB paid great attention to enhance the employees' moral and cultural values via the improvement of meeting spaces, establishment of resources for reading, organization of international recreation programs. SCB created a professional and modern working environment with appropriate and harmonious welfare policies for employees. Besides regulatory policies on labor and insurance, SCB supplemented financial and non-financial policies on accident insurance, medical insurance,

bonuses on holidays, bonuses on year performances, lunch allowance, other financial support for female employees on the occasions of Women's Day March 8, Vietnamese Women Day October 20. Moreover, SCB started to build internal activities such as internal communications, SCB news and other sports/ music competitions. These activities encouraged employees' moral and cultural life to flourish and then promote employees' business performance.

In 2018, SCB carried out many programs for personal development such as leadership training program, specialized courses to sales staff and soft skill courses for all staff. Furthermore, SCB established SCB Institute under HR Division to specialize the training activity, create a learning environment to train more professional and skillful

ASSERTING **STATUS**AND **SUSTAINABLE** DEVELOPMENT

- STABLE BUSINESS GROWTH
- A SUSTAINABLE AND STRONG DEVELOPMENT
- SUSTAINABLE DEVELOPMENT WITH SOCIAL RESPONSIBILITY

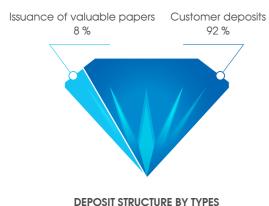

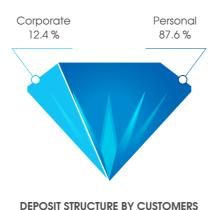

2018 BUSINESS RESULT - ASSERTING SCB' STATUS

STABLE GROWTH IN DEPOSITS - AN UNDERLYING BASE FOR SCB'S SUSTAINABLE DEVELOPMENT

As a result of constant innovation of typical deposit products with flexible terms, SCB has seen positive growth in deposits. That is, personal and corporate deposits increased 18.4% compared to 2017 year-end to reach VND418,338 billion on 31/12/2018. The deposit growth rate at SCB has been steadily higher than the industry average rate for years.

To obtain such growth in personal deposits, SCB successfully launched "SCB short-termed deposit certificate" product and restructured the portfolio of personal deposits. This contributed to the 2018 increase of VND50,936 billion in personal deposits at a rate of 16.1%. The significant growth of VND14,076 billion at a rate of 38.0% in corporate deposits has resulted from the emphasis on designing products for targeted customers.

REMARKABLY POSITIVE CREDIT QUALITY AND GROWTH IN 2018

With the target of becoming the leading modern versatile retail bank, in 2018, SCB advocated the diversity of credit products to accommodate customers' changing needs. Accordingly, SCB implemented shortening abundant transaction procedures, diversifying credit portfolio in retail banking to meet customer's needs. 2018 credit focused on credit segment of loans for business/asset capital supplementation and loans for consumption/ cars/homes.

Furthermore, credit policy on personal customers in 2018 focused on 3 segments: home loans, car loans and agriculture loans. The centralized credit support operation shortened the processing time and simplified the lending procedures, driving the productivity of credit operation in 2018. As a result, in 2018, total customer loans grew 13.3% to VND301,892 billion in 2018, an increase of VND35,391 billion.

In addition to that, in 2018, SCB continued to reinforce standards/regulations on risk prevention and control; enhanced the quality of credit appraisal; strictly complying with credit approval processes; accelerated the collection of overdue and bad debts. Owing to this, overdue and bad debt ratios were kept at 0.61% and 0.42% respectively that far lower than regulatory rates.

VND301,892 billion

CUSTOMER LOANS 2018

13.3 % growth

A SPURT IN NON-INTEREST INCOME

Non-interest income in 2018 impressively grew to contribute to more than 25% total operating income with an amount of VND1,746 billion, an increase of 15.2% compared to 2017. The core income from bancassurance, card, eBanking, international payment, foreign exchange and currency trading boosted the non-interest proportion in total income of the Bank. Bancassurance income increased 25%. Card & eBanking activities doubled its income. Net income from international payment witnessed an increase of 130% compared to 2017. These growths eventually justified the rightful direction of SCB management board toward a capital composition supported by non-interest income.

2018 SCB BANCASSURANCE

A CREATIVE APPROACH TO CUSTOMERS

The year 2018 was seen as great progress in SCB's partnership with Manulife in bancassurance. Total premium increased by 122% compared to the previous year. Such result was driven by the continually enhanced quality of products, customer policy and customized financial solutions.

In the year 2018, SCB hosted seminars on health and insurance with the purpose of providing customers with the knowledge of health care and measures of protection against financial risks, therefore enhancing the close relationship between SCB and customers. A significant event in this year was a talk on "Health - Joyfulness - Sharing" co-organized by SCB and FV Hospital at Windsor Plaza to give consultation on protection against heart diseases. This event attracted more than 200 customers.

The achievements of bancassurance in 2018 were a strong proof of a wise and creative strategy of SCB in emphasizing the potential customers and leverage SCB's competitiveness in bancassurance market.

CARDS & eBANKING

A BREAKTHROUGH IN BOTH QUALITY AND QUANTITY

Cards

SCB ended the year 2018 with a great success in international credit card issuance and revenue. The number of cards issued grew 27,100 cards, an increase of 150% compared to 2017. Card revenue increased 1.97 times compared to 2017. Apart from international credit card, SCB also actively promoted debit card issuance. The number of debit cards issued (domestic and international) in 2018 was 96,737 cards, arowina 1.44 times compared to 2017.

In 11/2018, SCB honorably received the award "Leadership in cross-border payment volume growth 2018" from Visa. The award certified SCB's constant efforts and reputation in card business, creating a momentum for SCB's ongoing commitment to high service auality.

Owing to such relentless efforts, SCB successfully hit the 2018 target in card business, creating momentum for more success in 2019.

INTERNATIONAL PAYMENT

In 2018, SCB eBanking continued to get a strong growth. Customers of Internet Banking and Mobile Banking increased in large numbers thanks to the higher service quality resulted from the improvement in eBanking channel.

eBanking

In addition to this, SCB also focused on opening more services such as 24/7 inter-bank money transfer at counters. SCB also broadened its bill payment list to include EVN Ho Chi Minh as a utilities supplier.

The year 2018 witnessed close cooperation between SCB and e-wallet and other payment service suppliers. SCB was one of the first banks to partner with Samsung Pay. SCB also cooperated with Moca in e-wallet to facilitate customers in making payment with Grab by Moca. Moreover, SCB partnered with two other e-wallet suppliers which are Airpay (used on Foody and Shopee) and VNPT Pay.

In the near future, SCB continues to develop more payment utilities by partnering with other e-wallet suppliers, improving its systems to meet the needs of most customers. SCB will introduce new digital applications to best serve customers and compete against other peers in this market.

To boost trade finance, international payment, remittance and to professionalize, standardize as well as centralize SCB trade finance, in 2018, SCB designed various packages of service for each customer segment such as payment for overseas study fees, overseas residential settlement, remittance to overseas relatives, homecoming remittance of overseas income, remittance for off-shore investment and full packages for corporate customers. With these efforts, the international payment turnover reached nearly USD3.9 billion, an increase of 125% compared to the previous year, service fees reached VND196 billion, 1.3 times the previous year fees. Besides, SCB was opted by correspondent banks for the title as the Bank having straight-through payment ratio of more than 90%.

With the advantage of a wide network of transaction outlets and correspondent banks together with the motto "Convenience - safety - promptness", SCB is committed to professional service and enthusiasm to the best satisfaction and assurance of customers. In 2019, SCB will roll out more beneficial services and options for customers like outward and inward overseas remittance on Digital Banking, new products and beneficial offers for trade financing. Moreover, SCB will implement promotional programs for new entrepreneurial and loyal customers.

29 % **VND**770

TA SUSTAINABLE AND STRONG DEVELOPMENT

CURRENCY TRADING

billion

For government bond trading, the year 2018 was featured with many complexities in the money and bond markets, both domestic and global, causing a strong downside of liquidity in the bond market. With multiple roles as a trading member of Hanoi Stock Exchange (HNX), a government bond bidding member and a member of the Vietnam Bond Market Association (VBMA), SCB actively contributed to the bond market and was proactively looking for new investment opportunities in this market.

For capital trading, on the basis of the satisfactory results in 2017 and the existing strength, in 2018, SCB continued to expand the relationship with domestic and international credit institutions, engaging in more inter-bank transactions. This positively contributed to the liquidity in the market and enhanced SCB's currency trading in 2018.

The 2018 profit in currency trading reached VND770 billion.

Based on the results achieved in the previous year, to strengthen SCB's reputation in the market and increase the business efficiency, SCB will broaden long-lasting relationship with other financial institutions, accelerate transactions and take preparation for tradina derivative products.

FOREIGN EXCHANGE TRADING

arowth

The global financial market in 2018 witnessed many unanticipated significant events like the increasing FED interest rates, China-US trade wars, etc. These occurrences led to the rise of USD value v.s. most other core currencies. The rate of USD/VND also went up nearly 3% affecting customer demand for foreign currencies. Facing such market volatility in 2018 and based on the abundant source of foreign currencies, SCB sped up the launch of derivative products such as forward, swap with terms up to 365 days to hedge against exchange rate changes and supply foreign currencies for customer business. These derivative products helped customers take initiative in reasonable costs in market fluctuations. Thanks to this active move in 2018, SCB's revenue from foreign exchange trading reached VND113 billion, a growth of 29% compared to 2017.

For personal customers, SCB also developed a wide range of products to supply foreign currencies at competitive exchange rates and with simple procedures for customers' purposes abroad such as travel, medical treatment, study, living costs, residential settlement, donation to relatives, etc.

In 2018, SCB updated the Reuters and Bloomberg transaction systems, put the Fis Front Arena system into operation to make FX transactions faster, more accurate and reduce risks. At the same time, SCB introduced another payment option to import-export customers when implementing payment transactions in CNY.

REINFORCING ORGANIZATIONAL STRUCTURE

Embracing the modern corporate management and professional transaction process, in 2019, SCB implemented the organizational restructuring, creating an efficient management mechanism for achieving business targets.

First in the restructuring of organization, SCB removed intermediary centers from the managerial structure, increasing a direct rapport between leadership and staffs and therefore, enabling the decision making process faster, reducing distracted communication, ensuring the continuity of efficiency of business operation

With the changes in the operational models of the Retail Banking Division and the Corporate Banking Division together with the establishment of the International Transaction Banking Division, the Card & Digital Banking Division and the credit supporting departments, all (sub)branches' business operations have been closely supported by the managerial departments in the Head Office to ensure the fast and seamless operations.

For human resource, the HR Division was scheduled to be in close line with the modern HR management and with HR practices at other banks.

Besides, in 2018, SCB began to run a centralized model of cash treasury operation in Ho Chi Minh City. This initiative helped to minimize the cash treasury operations at (sub)branches, improve the capability of personnel resource, reduce managerial costs, enhance the operations' efficiency.

REINFORCEMENT OF RISK MANAGEMENT

In 2018, SCB continued to innovate the 3-lineof-defense risk management model in which every employee would be required to be vigilant to risks within their operation scope. With this effort, SCB completed its strategic targets in risk management like:

- (1) optimizing the structure of risk management,
- (2) building a skilled team of risk management.
- (3) reinforcing supervision system,
- (4) building a risk data system,
- (5) developing risk culture,
- (6) standardizing core risks and principles of core risk management,
- (7) outlining risk appetites and classifying risk limits suited for business strateav.

For approaching risk management under Basel II, SCB was building a database, investing in information technology to systematize and enhance risk management competence in the context of economic integration and fierce competition in financial market.

Furthermore, SCB established the risk management board, capital management board, the Alco board as required by the Circular 13/2018/TT-NHNN dated 18/05/2018.

SCB thoroughly identified and assessed potential risks, residual risks in products, services and transactions to send alerts and solutions out to (sub)branches:

	\triangle	7
NT	$\angle \Box$	/
	W	

RISK TYPES	RISK MANAGEMENT ACTIVITIES
Credit risk management	Credit segment is a core business, SCB could always identify its potential credit risks. • Bolstering credit quality in expanding the size of credit growth to comply with adequacy ratios regulated by the State Bank. • Keeping close track of credit data to adjust risk-weighed valuation of assets; gearing the internal rating system to the Basel II stardards and international practices.
Operational risk management	 Tightening collaboration among business departments, (sub)branches in risk management. Reviewing, amending, issuing internal regulations, policies, processes to accommodate (sub)branches' typical business. SCB built loss data management program (LEM) and researched into the application of the Risk Control Self Assessment under Basel II (RCSA). Applying the Treasury System in the automated currency transactions from data inputting, accounting to payment (Front office - Middle office - Back office) to reduce errors and shorten processing time; Going live the Siron System to filter and prevent antimoney laundering and financial frauds, maximize transaction transmission. With these systems, the operational risks could be mitigated as transaction details could automatically be recorded and reported for future supervision. Risk management culture was engaged deeper in all employees via training courses, seminars, internal communication, propaganda, contests on SCB risk culture. These activities equipped SCB employees with the knowledge of self-assessment of risks, the effective control of processes and stimulated initiatives for more professional services to reduce operational risks.
Market risk management	• Exploiting the module of market risk management on the Treasury System to assess the market value of each transaction in portfolios, the portfolio sensitivity, VAR, etc. With the setting of transaction limits in this System, most trading transactions could be closely tracked, analyzed in time so that the system could send early alert for exchange risks or interest risks, etc. from market volatility.
Liquidity risk management	 Liquidity risk management with the solvency and liquid reserve ratios is always in strict compliance with the State Bank's regulations. Moreover, SCB closely monitored daily variations of fund supply and demand at SCB to ensure the business growth in harmony with the liquidity. Toward the international standards and practices on liquidity risk management, SCB proactively adopted and implemented a full frame of liquidity risk management, especially the liquidity gap management integrated with the models of customer behaviors and early warnings to prepare for appropriate back-up plans.
Interest risk management	 SCB already established policies, regulations and processes to identify, measure, supervise and report interest risk management to international standards. SCB measured and controlled the gap of the re-pricing period of interest rate - sensitive assets and interest rate - sensitive debts, sensitivity of net interest income and owner's equity. SCB also used derivative products to mitigate the adverse effect of interest rate fluctuations.

With efforts in capital management, SCB's adequacy ratios were all improved and in strict compliance with the State Bank's regulations. The capital adequacy ratio (CAR) was always above 9% during the year 2019 and reached 9.69% on 31/12/2018.

OPTIMAL TRANSACTION PROCESS AND RISK MITIGATION

In the path of modernizing the banking technology to reduce risks and curtail processing time, SCB has made many improvements for this, including:

- Shifting from a mannual process to a computerized process on Tablet in receiving, consulting and recording customer's information and SCB was one of the first banks in Vietnam to apply this technology in banking transaction.
- Upgrading Core banking to enhance the capability to process and manage large data sources, make operation process faster and more accurate as well as deliver better experience to customers.
- Shortening the process of card issuance and the process of credit approval to improve service quality.

SUSTAINABLE DEVELOPMENT WITH **SOCIAL RESPONSIBILITY**

"Being dedicated to community activities, social welfare to build a better society" is SCB's strong commitment to community besides its business activities. Community and social activities have always been multiplied year after year.

In 2018, SCB donated more than VND20 billion to education campaigns, funds for the poor, funds for disadvantaged children, funds for island soldiers, community health programs, etc. SCB will regularly continue to launch many community outreach programs and social activities across the country to maintain a philanthropic tradition among SCB employees.

SOCIAL ACTIVITIES

To urge students to get closer to new technology, SCB carried out many investments and activities related to the youth, encouraging them to obtain new academic achievements.

Raising VND2 billion to local governmental funds for disadvantaged and talent students nation-wide.

• SCB An Giang Branch contributing the 2018 scholarship fund "SCB support for study" in An Giang province.

Philanthropic activities such as Fund for the Poor of Hoc Mon, Binh Chanh provinces, Fund for Women and Children in Hardship, Contribution to people in flooded regions, etc.

SUPPORT IN LOCAL DEVELOPMENT

ACCOMPANYING WITH VIETNAM ENTERPRISES

• SCB sponsoring the Semiar "US-China Trade War: Opportunities and Challenges for Vietnamese Enterprises"

The Seminar provided many useful information on:

- Vietnam's macro-economy in the context of US-China trade war:
- Opportunities and Challenges for Vietnamese Enterprises:
 - Existing legal issues;
- Financial solutions for Vietnamese enterprises through 2020.
- SCB and the Saigon Times co-hosting the Talk on Cheap **Funds for Small Enterprises**

On 18/7/2018, SCB and the Saigon Times cohosting the Talk on Cheap Funds for Small Enterprises. The Talk attracted more than 150 participants. The Talk proposed solutions of access to preferential funds for SMEs in the existing circumstances.

• SCB participating the Program on Agriculture **Development**

On 18/05/2018, in Hanoi, SCB participated in the Program on Promotion on Trade & Technology and Capital for Development of Vietnamese Cooperatives.

In this Program, SCB signed a strategic agreement to provide credit to cooperatives' members. Besides, SCB and Agricultural Bank of Taiwan entered into an agreement to support the development of agricultural sectors.

Mr. Vo Tan Hoang Van, SCB CEO said: "SCB will offer loans with better competitive interest rates than other normal loan packages to cooperatives' members. With over 6.5 million members plus the advantage in agriculture and labor resources, we hope that this would become an important segment of customers for SCB in the next 2-3 years".

• SCB also participated in the Trade Promotion Fair for Cooperatives 2018" held in Hanoi from 18/05 -20/05/2018. In this event, SCB introduced various packages of products and services like working capital loans, loans for agricultural businesses, especially finance for goods imported from Taiwan, etc.

- SCB Quang Ninh Branch honorably received a merit certificate from the Chairman of Quang Ninh province for excellent contributions to the achievements of the province in 2018.
- SCB participating in the Friendship Contest of Football with local authority of ward 1, district 5 of Ho Chi Minh City to encourage the sports activities among SCB employees.
- Making contributions to charity events during holiday occasions. SCB has actively contributed to the community projects and social development programs such as Art light decoration on streets in Hanoi and Ho Chi Minh city and Countdown Light 2019 program.

Many events were organized by SCB to help students in their career paths.

• SCB organized career training meetings for students of Ton Duc Thang university

14/11/2018, SCB and Ton Duc Thang University co-hosting the program of consultancy on banking careers for more than 500 students of Ton Duc Thang Uninversity.

• "SCB Job Fair 2018"

On 28/07/2018, SCB hosting "SCB Job Fair 2018" with the attendance of nearly 300 students from banking and economy universities in Ho Chi Minh City.

• SCB sponsoring the Talk on Opportunity of Overseas Study and Scholarship

On 22/12/2018, SCB sponsoring the Talk on Opportunity of Overseas Study and Scholarship hosted by the International Training Institution of National University in Ho Chi Minh City. SCB would be a provider of financial solutions for students looking for opportunity to study abroad.

2019 STRATEGY READY FOR GOING BEYOND

2019 STRATEGY

READY FOR GOING BEYOND

Under current economy and forecasts on banking industry trend in Vietnam, SCB's business operations are outlined for 2019 as follows:

- Retail banking is scheduled to grow annually at least 30% in revenues, emphasizing on delivering customer experience and raising the proportion of non-interest income. Expanding the payment services and modern banking services safely and efficiently via: launching new services, technology-based services, introducing basic services, promoting service sales, broadening customer base to hit the target of a 50% growth in service income, widening credit to new credit segments, especially personal credit, SMEs credit and agricultural credit.
- Restructuring (sub)branches according to each management region to encourage the growth in business activities in the next years.
- Upgrading the technology system and diversifying digital-based products to enhance the competitiveness in the era of digital technology
- Upgrading the technology system to support business governance, new product engineering and risk management. The technology system is expected to provide optimal resource solutions, bolster governance competence, computerize processes of operation, recording, automate manual tasks and minimize operational risks. The system can export true and accurate reports to facilitate the activities in business governance such as monitoring, post-transaction supervision and decision making. The upgrade fastens the shifting of traditional services to digital services to deliver new transaction experience and conduct customer behaviors.
- With the establishment of the Card & Digital Banking Division, in 2019, SCB will boost the digital service business to:
 - Ensure that the digital banking operates seamlessly, synchronously and effectively; monitor, manage risks to comply with regulations of international card associations and the State Bank.
 - Innovate the processes and quality of the system, transaction softwares.
 - Cooperate with SCB's partners in multiplying features of digital banking services; broadening portfolio of products and services for distribution channels of cards and digital banking.

- In purpose of internationally integrating business operations, in 2019, SCB established the International Transaction Banking Division to motivate the business in trade finance, international payment and remittance:
- Operate, manage quality and risks in international transactions according to SCB's regulations, Vietnamese laws and international regulations.
- Carry out research, increase the variety and competitiveness of products & services in trade finance, international payment and remittance.
- Develop distribution channels, outline the strategy of business, and deepen partnerships to become more professional and more profitable in business operation.

- Building a synchronous and efficient system of risk management, internal supervision; Basel II's principles and standards will be further adopted into risk management as follows:
- In 2019, SCB continues to innovate the infrastructure, professionalize risk management personnel, standardize risk data, automate reports on risk management, capital assessment to facilitate decision making and enhance efficient business.
- SCB is strongly committed to the implementation of Basel II in a due course to sustain an efficient business and increase competitiveness in the market:
 - SCB is in the process of data collection to provide inputs to the capital calculation test, establishing a board of the Project "Implementing standards

of capital adequacy under the Circular 41/2016/ TT-NHNH". This project is scheduled to take place within the first 30 weeks of 2019.

- The systems of internal supervision and risk management will be fully calibrated in 2019 as per the State Bank's guidelines.

Expansion of Brand identity:

- Buid and manage a brand identity system for SCB, continue to standardize working facilities, transaction spaces across SCB's (sub)branches.
- Set up a plan to expand the transaction network in 2019. The network will be relocated to have presences in potential regions. SCB will regularly review the rationality of the network and make proper adjustments of networking planning to expand SCB image throughout the country.
- Upgrade to establish the Branding Network & Business Administration Division to motivate the building of the branding strategy: research to launch appropriate campaigns to enhance public awareness of SCB brand, convey SCB's true messages and core values to targeted customers; outline and implement activities to promote branding, products and services on multi-channels from traditional channels to modern channels such as (Website SCB, Fanpage, etc.).

Policy of remuneration to the meritocracy:

- With the existing 3P remuneration system, the employee salary is paid based on job position. contribution, performance, internal fairness and equivalent salary in the labor market to attract and retain talents as well as to encourage performance. The 3P remuneration system has proved its validity in motivating productivity and dedicated performance among employees.
- For this purpose, in 2019, the remuneration policy will be calibrated to generate more value to SCB employees. In which, the employee income will be adjusted to include the salary paid based on the performance result of units (departments, (sub) branches, etc.) plus a bonus paid for outstanding achievements. This advanced salary mechanism will factor in current developments in labor markets to be fairer across SCB network. This mechanism will closely reflect the employees' contribution and dedication. This is considered a significant milestone in changes made at SCB, not just in business operatio, but also in overall corporate governance in the spirit of "SCB -Speed up to lead".

THE BOARD OF MANAGEMENT'S STATEMENT OF RESPONSIBILITY

The Board of Management of the Bank is responsible for preparing the consolidated financial statements, which give a true and fair view of the consolidated financial position of the Bank and its subsidiaries as at 31 December 2018, its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Vietnamese Accounting Standards, accounting regime applicable to credit institutions in Vietnam and legal regulations relating to financial reporting. In preparing these consolidated financial statements, the Board of Management is required to:

- Select suitable accounting policies and then apply them consistently;
- Make judgments and estimates that are reasonable and prudent;
- State whether applicable accounting principles have been followed, subject to any material departures disclosed and explained in the consolidated financial statements;
- Prepare the consolidated financial statements on the going concern basis unless it is inappropriate to presume that the Bank will continue in business; and
- Design and implement an effective internal control system for the purpose of properly preparing and presenting the consolidated financial statements so as to minimize errors and frauds.

The Board of Management is responsible for ensuring that proper accounting records are kept, which disclose, with reasonable accuracy at any time, the consolidated financial position of the Bank and its subsidiaries and that the consolidated financial statements comply with Vietnamese Accounting Standards, accounting regime applicable to credit institutions in Vietnam and legal regulations relating to financial reporting. The Board of Management is also responsible for safeguarding the assets of the Bank and its subsidiaries and hence for taking reasonable steps for the prevention and detection of frauds and other irregularities.

The Board of Management confirms that the Bank has complied with the above requirements in preparing these consolidated financial statements.

For and on behalf of the Board of Management,

NGÂN HÀNG THƯỚNG MẠI CÓ NIỆN THƯỚNG MẠI CÓ NHÀNG THƯỚNG THỦ CÓ NHÀNG THƯỚNG THƯỚNG THỦ CÓ NHÀNG THƯỚNG THỦ THƯỚNG THỦ THƯỚNG THỦ THƯỚNG TH

VO TAN HOANG VAN CHIEF EXECUTIVE OFFICER

29 March 2019

No: 690/VN1A-HC-BC

INDEPENDENT AUDITORS' REPORT.

To: The Shareholders, the Boards of Directors and Management Saigon Joint Stock Commercial Bank

We have audited the accompanying consolidated financial statements of Saigon Joint Stock Commercial Bank (the "Bank") prepared on 29 March 2019, as set out from page 74 to page 141, which comprise the consolidated balance sheet as at 31 December 2018, the consolidated income statement, the consolidated cash flow statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

Board of Management's Responsibility for the Consolidated Financial Statements

The Board of Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with Vietnamese Accounting Standards, accounting regime applicable to credit institutions in Vietnam and legal regulations relating to financial reporting and for such internal control as the management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with Vietnamese Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the Bank's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Bank's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements present fairly in all materials respects, the consolidated financial position of the Bank and its subsidiaries as at 31 December 2018, and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Vietnamese Accounting Standards, accounting regime applicable to credit institutions in Vietnam and legal regulations relating to financial reporting.

Disclosure of information comparability in the consolidated financial statements

Comparative figures are the figures of the audited consolidated financial statements for the year ended 31 December 2017,

2. ACCOUNTING CONVENTION AND FINANCIAL YEAR

Accounting convention

The accompanying consolidated financial statements, expressed in Vietnam Dong ("VND"), are prepared under the historical cost convention and in accordance with Vietnamese Accounting Standards, accounting regime applicable to credit institutions in Vietnam and legal regulations relating to financial reporting. However, because of the large scale of the Bank's operation, for the purpose of preparing these consolidated financial statements, the figures are rounded to and presented in million VND. This presentation does not materially affect the consolidated financial statements in terms of consolidated financial position, consolidated financial performance and consolidated cash flows. With regard to the number of shares (Note 24), basis earning per share (Note 36) and exchange rate of applicable foreign currencies against VND (Note 50), the Bank presented the items in unit.

The accompanying consolidated financial statements are not intended to present the consolidated financial position, consolidated results of operations and consolidated cash flows in accordance with accounting principles and practices generally accepted in countries and jurisdictions other than Vietnam.

Financial year

The Bank and its subsidiaries' financial year begins on 01 January and ends on 31 December.

3. ADOPTION OF NEW ACCOUNTING GUIDANCE

The accouting policies adopted by the Bank in preparation of the consolidated financial statements are consistent with those followed in the preparation of the Bank's consolidated financial statements for the year ended 31 December 2017, except for the following changes:

Circular No. 14/2017/TT-NHNN ("Circular 14") regulating the methods of calculating interest on depositing and credit extension transaction between credit institutions and customers

On 29 September 2017, the State Bank of Vietnam issued Circular 14 regulating the methods of calculating interest on depositing and credit extension transaction between credit institutions and customers, effective from 01 January 2018. Accordingly, the interest accruals on credit and deposit operation are calculated on the basis that a year is 365 days.

Circular No. 19/2017/TT-NHNN ("Circular 19") amending and supplementing a number of articles of Circular No. 36/2014/TT-NHNN dated 20 November 2014 ("Circular 36") of the Governor of the State Bank stipulating prudential ratios and limits for the operation of credit institutions and foreign bank branches

On 28 December 2017, the State Bank of Vietnam issued Circular 19 amending and supplementing a number of articles of Circular 36 dated 20 November 2014 of the Governor of the State Bank stipulating prudential ratios and limits for the operation of credit institutions and foreign bank branches, effective from 12 February 2018. Accordingly, other commitments disclosed in "Off-balance sheet items" include unused credit limits that credit institutions have rights to cancel or automatically cancel when customers breach conditions of cancelling or deteriorate the capacity to perform obligations; and unused credit limits of credit cards and other commitments.

Circular No. 16/2018/TT-BTC ("Circular 16") guiding a number of articles of the financial regime applicable to credit institutions and foreign bank branches

Changes in Circular 16 are as below:

- Amending and supplementing the management and utilization method of real estate held for debt resolution;
- Amending and supplementing the recognition of revenue from trading of securities (shares exclusive); and
- Amending and supplementing recognition of expenses.

Circular 16 has taken effect since 26 March 2018 and replaced Circular No. 05/2013/TT-BTC dated 9 January 2013 of the Ministry of Finance providing guidance to the financial regime applicable to credit institutions and foreign bank branches.

Circular No. 22/2017/TT-NHNN ("Circular 22") amending and supplementing a number of articles of the Chart of account system applicable to credit institutions issued in connection with Decision No. 479/2004/QD-NHNN dated 29 April 2004 ("Decision 479") and the financial reporting regime applicable to credit institutions required under Decision No. 16/2007/QD-NHNN ("Decision 16") dated 18 April 2007 by the Governor of the State Bank

On 29 December 2017, the State Bank of Vietnam issued Circular 22 amending and supplementing a number of articles of

the Chart of account system applicable to credit institutions issued in connection with Decision 479 dated 29 April 2004 and the financial reporting regime applicable to credit institutions required under Decision 16 dated 18 April 2007 by the Governor of the State Bank. Circular 22 has taken effect since 01 April 2018.

Changes in Circular 22 are as below:

- Amending and supplementing the guidances on the accounting treatment for foreign exchange and gold transactions;
- Amending a number of accounts in the Chart of account system applicable to credit institutions;
- Amending the guidances on the accounting treatment for some accounts in the Chart of account system applicable to credit institutions; and
 - · Amending and supplementing the guidances on the Financial reporting regime applicable to credit institutions.

The Bank's Board of Management applied all above circulars in preparation of the consolidated financial statements for the year ended 31 December 2018.

The Bank's Board of Management assessed the effect of Circular 22 on the comparative figures in the consolidated financial statements. Accordingly, the effects due to changes in the exchange rate policies are immaterial. As a result, the Bank is not required to restate the comparative figures due to changes in exchange rate policies.

4. THE CONTENTS OF THE APPROVAL OF THE STATE BANK OF VIETNAM ("SBV") FOR RESTRUCTURING PLAN

According to the Restructuring Plan for the five-year period from 2015 to 2019, the SBV has given the Bank permission to continue the pending tasks of the Restructuring Plan for the period 2012 - 2014 and implement some activities of the Bank in relation to recognition of transactions, preparation and presentation of consolidated financial statements as follows:

- Allow the Bank to restructure loan repayment terms without changing the loan groups of certain loans under the Restructuring Plan for the period 2012 2014 as approved by the SBV.
 - Continue disbursing loans to restructure accrued interest receivables of certain construction projects.
 - Continue lending for completion of some pending projects under the Restructuring Plan.
 - Allow the Bank to make provision for credit losses based on its financial capacity.

The Bank is implementing the above Restructuring Plan and periodically reports the progress to the SBV.

5. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies, which have been adopted by the Bank in the preparation of these consolidated financial statements, are as follows:

5.1. Estimates

The preparation of consolidated financial statements in conformity with Vietnamese Accounting Standards, accounting regime applicable to credit institutions in Vietnam and legal regulations relating to financial reporting requires the management to make estimates and assumptions that affect the reported amounts of assets, liabilities and disclosures of contingent assets and liabilities at the balance sheet date and the reported amounts of revenues and expenses during the financial year. Although these accounting estimates are based on the management's best knowledge, actual results may differ from those estimates.

5.2. Foreign currencies

According to the Bank's accounting system, all the transactions are recorded at original currencies. Monetary assets and liabilities denominated in foreign currencies are translated into VND using the average exchange rate for spot selling and buying of such foreign currency at working day's end of the consolidated balance sheet date if the difference between this rate and the weighted average buying and selling rate of that day is less than 1% (see list of exchange rates of some foreign currencies as at 31 December 2018 in Note 50 for more details). In case the difference between the average exchange rate for spot selling and buying of such foreign currency at working day's end of the consolidated balance sheet date with the weighted average buying and selling rate of that day is more than 1%, the Bank shall use the weighted average buying and selling rate of the consolidated balance sheet date to translate. Income and expenses arising in foreign currencies are converted into VND at the average exchange rate for spot selling and buying at the time of occurrence of economic/financial transactions or the average spot exchange rate of all exchange rate changes at the date of transaction. At the last date of accounting period, exchange differences arising from revaluating assets and liabilities denominated in foreign currencies into VND are recorded as "Net gain from foreign exchange trading" in the consolidated income statement.

AUDITED REPORTS

5.3. Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Bank and enterprises controlled by the Bank (its subsidiaries) as at 31 December 2018. Control is achieved where the Bank has the power to govern the financial and operating policies of an investee enterprise so as to obtain benefits from its activities.

The results of subsidiaries acquired or disposed of during the year are included in the consolidated income statement from the effective date of acquisition or up to the effective date of disposal, as appropriate.

Where necessary, adjustments are made to the financial statements of subsidiaries to bring the accounting policies used in line with those used by the Bank.

Intragroup transactions and balances are eliminated in full on consolidation.

Non-controlling interests consist of the amount of those non-controlling interests at the date of the original business combination and the non-controlling interests' share of changes in equity since the date of the combination. Losses in subsidiaries are respectively attributed to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

5.4. Business combinations

On acquisition, the assets and liabilities and contingent liabilities of a subsidiary are measured at their fair values at the date of acquisition. Any excess cost of acquisition over the fair values of the identifiable net assets acquired is recognised as goodwill. Any deficiency in the cost of acquisition below the fair values of the identifiable net assets acquired is credited to profit and loss in the year of acquisition.

The non-controlling interests are initially measured at the non-controlling shareholders' proportion of the net fair value of the assets, liabilities and contingent liabilities recognised.

5.5. Goodwill

Goodwill represents the excess of the cost of acquisition over the Bank's interest in the net fair value of the identifiable assets, liabilities and contingent liabilities of a subsidiary, associate or jointly controlled entity at the date of acquisition.

Goodwill is recognised as an intangible asset and is amortised on the straight-line basis over its estimated period of benefit of 10 years (as per VAS 11 - Business Combination, the maximum estimated useful life should not exceed 10 years).

Goodwill arising on the acquisition of subsidiaries is presented separately as an intangible asset in the consolidated balance sheet.

On disposal of a subsidiary, the attributable amount of unamortised goodwill is included in the determination of the profit or loss on disposal.

5.6. Derivatives

The Bank and its subsidiaries involve in currency forward contracts and currency swap contracts.

For foreign currency forward and swap contracts, the difference between equivalent VND amounts of commitments on buying/selling foreign currency using forward exchange rate and spot exchange rate as at effective date of the contract is recognised immediately at the effective date of the contract in the "Interest and fee receivables" item or "Interest and fee payables" item in the consolidated balance sheet.

The difference is subsequently allocated to "Net gain from foreign exchange trading" item using the straight-line method over the term of the contracts.

At the year end, commitments of foreign currency forward and swap contracts are revaluated using the central rates announced by the SBV for US Dollar and the transfer buying rates announced by the Bank for other foreign currencies. At the year end, exchange differences arising from the translation of foreign currency denominated balances of forward contracts are recognised in the "Net gain from foreign exchange trading" item in the consolidated income statement.

5.7. Interest income and expenses

Interest income and expenses are recognised in the consolidated income statement on an accrual basis. The recognition of accrued interest income is suspended when a loan is classified in groups 2 to 5 according to prevailing regulations and is reversed and monitored as off-balance-sheet item, and recognised in the consolidated income statement upon actual receipt.

5.8. Fees and commissions

Fees and commission consist of fees received from settlement services, treasury services, guarantees services, and other services. Fees on guarantees services are recognised on advance receipt and straight-line method allocation. Fees on settlement services, treasury services and other services are recognised when services are provided.

5.9. Income from investments

Interest income from investments in securities are recognised on accrual basis.

5.10. Revenue from the sales of goods and services

Revenue from the sales of goods

Revenue from the sales of goods is recognised when the significant risks and rewards of ownership of the goods have been transferred to the buyer, normally at the same time when goods are transferred to the buyer.

Revenue from rendering services

Revenue of a transaction involving the rendering of services is recognised when the outcome of such transactions can be measured reliably. Outcome of such transaction is determined by reference to the percentage of completion of the transaction at the balance sheet date over the total estimated time for each transaction. If the outcome of such transaction cannot be measured reliably, revenue should be recognised by recoverably recorded expenditures.

Rental income

Rental income from operating lease is recognised into operation result under straight-line method during the leasing period.

5.11. Premium, insurance expenses, recognition of reinsurance activities and technical reserves

Direct insurance premium is recorded by the subsidiary of the Bank - Bao Long Insurance Joint Stock Company ("the Company") in accordance with Circular No. 50/2017/TT-BTC ("Circular 50") on guidelines for the Government's Decree No. 73/2016/ND-CP dated 01 July 2016 on details of the implementation of the Law on insurance business and the Law on amendments, supplements to certain articles of the Law on insurance business.

Specifically, direct premium is recognized as revenue at the point of time when the following conditions are met:

- (a) The insurance contract has been entered into by the insurer and the insured, and the insured has paid full premium; or
- (b) There is evidence about coverage acceptance and the insured has paid full premium; or
- (c) The insurance contract has been entered into by the insurer and the insured and there is agreement between the insurer and the insured for term payment of insurance premium, which in such case the insurer still should recognize as revenue the premium payables according to agreement in the insurance contract. The credit term (including extension period) shall not exceed 30 days from policy inception date. In case of insurance contracts for cargo owned by clients who have multiple shipments covered in a year or travelling insurance contracts for clients who have multiple tours covered in a year, if the Company and the policyholder have entered into an insurance policy in terms of method of purchase of insurance and method of payment, premium payment period of an insurance policy of which insurance period commences in this month shall expire no later than the 25th of the next month.

For instalment contracts, the Company records revenue from insurance premium of the first instalment on the insurance contract's inception date. The Company shall only record revenue from insurance premium of the remaining instalments when the policy holder make full premium payment under the agreement in the insurance contract.

In case of the policyholder cannot make full premium payment under the agreement in the insurance contract, the Company does not have any agreement for the policyholders to delay the premium according to the regulation detailed in Item d, Point 1.1, Clause 1, Article 21, Circular 50, the insurance contract shall automatically terminate after the contractual premium payment date. The Company shall not agree with the policy holder to change the payment term and the term of the insurance premiums throughout the insurance contract.

Insurance premiums received before the liability has not yet arisen at the end of the fiscal year are recognized as "Other payables" on the consolidated balance sheet.

Claim expenses are recognized at the point of time when the claim documents are completed and approved by authorized personnel. In case that the final claim amount has not been finalized but the Company is certain that the loss is within its insured liabilities and has paid an advance to the customer as per their request, such advance would also be recognized as claim advance in "Other assets" in the consolidated balance sheet.

Commission expenses are recognized when incurred. Commission expenses are calculated at the percentage of revenue from direct premium occurred in the period and recognized in the income statement. The percentage of commission for specific line of insurance is stipulated in Circular 50 issued by the Ministry of Finance. At the end of financial year, the part of insurance commission which is not included in expenses of this period corresponding to unearned premium must be determined and allocated in the subsequent periods using the method registered and approved in writing by the Ministry of Finance.

Recognition of reinsurance activities

(i) Inward reinsurance:

Inward reinsurance premiums under treaty inward reinsurance agreements are recognized when the treaty inward reinsurance agreements have been entered into by the Company and when the statement of account has been received from the cedant.

Inward reinsurance premium under facultative inward reinsurance agreements are recognized when the facultative inward reinsurance agreements have been entered into by the Company and when the statement of account has been received from the cedant.

Claims expenses for inward reinsurance under treaty and facultative inward reinsurance agreements are recognized when there is evidence of liability of the Company and when a statement of account has been sent to the Company.

Commission expenses from treaty inward reinsurance and facultative inward reinsurance agreements are recognized when the corresponding inward reinsurance premium is recognized and when a statement of account has been sent to the Company. At the end of the financial year, a part of commission expenses from inward reinsurance which is not included in expense of current period corresponding to unearned premium of inward reinsurance must be determined and allocated in the subsequent periods using the method for unearned premium reserve registered and approved in writing by Ministry of Finance

(ii) Outward reinsurance:

Receive reinsurance under fixed reinsurance agreements:

• Outward reinsurance premiums under treaty outward reinsurance agreements are recognized when the treaty outward reinsurance agreements have been entered into by the Corporation and when premiums of direct insurance and inward reinsurance within the scope of the treaty agreements are recognized.

Receive reinsurance under temporary reinsurance contracts:

- Outward reinsurance premium under facultative reinsurance agreements are recognized when the facultative outward reinsurance agreements have been entered into by the Corporation and when the premium of direct insurance and inward reinsurance within the scope of the facultative agreements are recognized.
- Claims recovered from outward reinsurance is recognized when there is evidence of liability on the part of the reinsurer.
- Commission income from outward reinsurance is recognized when the corresponding outward reinsurance premium is recognized. At the end of the accounting period, a part of commission income from outward reinsurance which is not included in income of the current period corresponding with unearned premium of outward reinsurance must be determined and allocated in the subsequent periods using the method for unearned premium reserve registered and approved in writing by the Ministry of Finance.

Technical reserves

Professional reserve funds include (i) unearned premium reserve, (ii) claim reserve and (iii) catastrophe provision. The deduction for setting up the insurance operation reserve is carried out in accordance with the methods stipulated in Circular 50 of the Ministry of Finance and Official Letter No. 792 / BTC-QLBH of January 19, 2018 of the Ministry of Finance ("Dispatch 792") Regarding the confirmation of the registration for setting up insurance operation reserves. Specifically, the method of setting up professional provisions as at 31 December 2018 is as follows:

a. For non-life insurance:

(i) Unearned premium reserve

According to Official Letter 792, the unearned premium reserve ("UPR") is calculated as follows: Reversing method is based on a factor of the term of insurance contracts (the 1/24 method). Such method assumes the premiums of all insurance contracts, reinsurance contracts issued by the Company received within a month are evenly distributed within a month, in other words, all contracts of a particular month are assumed to take effect in the middle of that month. The UPR is calculated by the formula:

Unearned premium reserve = Premiums x Proportion of unearned premiums

(ii) Claim reserve

Claim reserve includes the reserve for outstanding claims under insurance liabilities and for losses incurred but not reported.

- Outstanding claim reserve under insurance liabilities is established based on the estimated claim payments for each claim for which the insurer is liable, which is either notified to the Corporation or requested for payment but is still unresolved at the end of the accounting period; and
- Claim reserve for losses incurred but not reported for which the insurer is liable ("IBNR") is calculated at the rate equal to 3% of total premium for each insurance product line.

(iii) Catastrophe reserve

In accordance with the Official Letter 792, catastrophe reserve is calculated based on 1% of the retained premium for each insurance product line and accumulated until reaching 100% of the Company's retained premium for the year.

According to Vietnam Accounting Standard No. 19 ("VAS 19") - Insurance contracts, claims for compensation arising from insurance contracts do not exist at the time of financial statements are not necessary. However, there are currently no official guidelines of the Ministry of Finance in relation to this Standard, so catastrophe reserve is continued providing under the guidance of Circular 50 and Official Letter 792. Accordingly, the Company makes an appropriation of 1% of the premium retained by each insurance product line and is set up annually until this provision is equal to 100% of the retained premium for the year.

b. For health insurance policies:

(i) Mathematical reserve

According to Official Letter 792, the mathematical reserve applied for policies with term of more than one (1) year is calculated as follows:

• For health insurance policies (except for health insurance policies covering death or total permanent disability only):

Reversing method is based on a factor of the term of insurance contracts (the 1/8 method). Such method assumes that the premiums of all insurance contracts, reinsurance contracts issued by the Company within a quarter are evenly distributed between three months of each quarter, in other words, all contracts of a particular quarter are assumed to take effect in the middle of that quarter. The mathematical reserve is calculated by the formula:

Mathematical reserve = Premiums x Proportion of unearned premiums

• For health insurance policies covering death or total permanent disability only:

Reversing method is based on a factor of the term of insurance contracts (the daily method). Such method assumes that the premiums of all insurance contracts, reinsurance contracts issued by the Company within a day are evenly distributed at the end of the day, in other words, all contracts of a particular day are assumed to take effect at the end of the day. The mathematical reserve is calculated by the formula:

Mathematical reserve = Insurance premiums x Number of remaining days of insurance or reinsurance policy Total days of insurance premiums x number of remaining days of insurance or reinsurance policy

(ii) Unearned premium reserve

According to Official Letter 792, the unearned premium reserve ("UPR") applied for policies with term of equal or less than one (1) year is calculated as follows: Reserving method is based on a factor of the term of insurance contracts (the 1/24 method). Such method assumes that the premiums of all insurance contracts, reinsurance contracts issued by the Company within a month are evenly distributed in the month, in other words, all contracts of a particular month are assumed to take effect in the middle of that month. The UPR is calculated by the formula:

Unearned premium reserve = Premiums x Proportion of unearned premiums

(iii) Claim reserve

Claim reserve includes the reserve for outstanding claims under insurance liabilities and for claims incurred but not reported.

- Outstanding claim reserve under insurance liabilities is established based on the estimated claim payments for each claim for which the insurer is liable, which is either notified to the insurer or requested for payment but is still unresolved at the end of the accounting period; and
- Claim reserve for losses incurred but not reported for which the insurer is liable ("IBNR") is calculated at the rate equal to 3% of total premium for each insurance product line.

(iv) Resilience reserve

According to Official Letter 792, resilience reserve is made annually at the rate 1% of total retained premiums for each insurance product line.

5.12. Income and expenses from the sale of debts

Income and expenses from the sale of debts are recognised in accordance with Decision No. 59/2006/QD-NHNN ("Decision 59") issued by the SBV promulgating regulations on sale and purchase of debts by credit institutions. From 01 September 2015, income and expenses arising from sale of debts are recognised following Circular No. 09/2015/TT-NHNN ("Circular 09") providing guidance on the purchase and sale of debts of credit institutions and foreign bank branches.

According to Decision 59 and Circular 09, the difference between the price of debts purchased or sold and their book value are recorded as follows:

For debts recorded in the consolidated balance sheet:

- If the sale price is higher than the book value of the debt, the difference shall be recorded in the consolidated income statement of the Bank;
- If the purchase or sale price is lower than the book value of the debt, the difference shall be used to offset against the indemnity paid by an individual or guarantor (in case such individual or guarantor is determined to be responsible for the damage and obliged to make indemnity under prevailing regulations), or the compensation paid by the insurer, or use of outstanding provision recognised as expense previously. The remaining balance (if any) shall be recognised as an operating expense of the Bank in the year.

For debts written off and monitored off the balance sheet, the proceeds from sale of debts shall be recognised as other income of the Bank.

Book value of debts purchased and sold is the book value of the principal, interest and related financial obligations (if any) of debts recorded in the consolidated balance sheet or off the balance sheet at the date of debt purchase or sale; or the book value at the date of writing-off of debts; or the book value of debts written off previously at the date of debt purchase and sale.

Debt purchase or sale price is the sum of money to be paid by a debt purchaser to a debt seller under a debt purchase or sales contract

5.13. Loans and Provision for credit losses

Loans are recorded at their outstanding principal amounts less any write-offs and provisions for impaired loans.

In accordance with Circular No. 02/2013/TT-NHNN dated 21 January 2013 ("Circular 02") and Circular No. 09/2014/TT-NHNN dated 18 March 2014 ("Circular 09") by the SBV, credit institutions are required to make loan classification and credit risk provisioning. Loan classification and credit risk provisioning in compliance with Circular 02 and Circular 09 are applied to assets (hereinafter referred to as "debts") including:

- Loans:
- Finance leases:
- Discounts, rediscounts of negotiable instruments and other valuable papers;
- Factoring;
- Credit issuance under form of credit card issuance;
- Payments on behalf of customers under off-balance sheet commitments;
- Cost and entrusted amounts for purchase of unlisted corporate bonds on securities market or unregistered on trading market of unlisted public companies (*Upcom*) (hereinafter referred to as unlisted bonds), excluding purchase of unlisted bonds by entrustment amount which the trustors bear risks.
 - Entrusted credit facilities;
- Deposits (excluding deposits for payment) at domestic credit institutions, foreign bank branches in Vietnam as prescribed by law and deposits at foreign credit institutions.

The Bank implements the classification of debts under quantitative method in accordance with Article 10 of Circular 02.

Accordingly, loans to customers are graded using the following risk classifications: Current, Special-mentioned, Sub-standard,

Doubtful and Loss based on the overdue status.

Credit risk exposure of loans to customers is calculated by subtracting the determined value of collateral which is subject to certain accepted discount rates in accordance with Circular 02 from the remaining value of loan.

The Bank has made provision for credit loss of loans to customers reasonably in accordance with the Circular 02, Circular 09 and the Restructuring Plan's subjects as approved by the SBV (Note 4).

Specific provision is established based on the net loan exposure of loans using the prescribed provision rates applicable to that loan classification as follows:

Group	Category	Provision rate
1	Current	0%
2	Special-mentioned	5%
3	Sub-standard	20%
4	Doubtful	50%
5	Loss	100%

For customers who have two or more debts with the Bank and any of which is classified into the group of higher risk, the other debts should also be classified into the group with higher risk equivalent to the risk.

When the Bank participates in a syndicated loan as a participant, it classifies loans (including syndicated loans) of the customer into the higher between the risk group assessed by the leading bank and by the Bank.

According to Clause 3a, Article 10 of Circular 02 modified by Clause 11, Article 1 of Circular 09, rescheduled debts are remained risk classification group when all following conditions are satisfied:

- Debts and credit granting do not violate legislations;
- Restructure of time limit for debt payment is conformable with purpose of project as described in the credit contract;
- Customers uses capital for a proper purpose;
- Customer has a plan on debt payment which is feasible, conformable with conditions of production, business and service;
- The Bank satisfies regulations of the State Bank on limitations, rate of safety assurance in activities of the Bank, including the maximum rate of short-term capital sources used for medium-term and long-term debts in case of restructuring short-term debts into medium-term or long-term.

Only when satisfying all above requirements, the Bank can restructure time limit for debt payment of customers, and remain their current loan classification. Debt rescheduling is conducted once for a debt. Clause 3a, Article 10 of Circular 02 takes effect on 20 March 2014 and ceases to be effective on 1 April 2015.

Loans will be classified at the end of each quarter for the first three quarters and on 30 November for the fourth quarter of the fiscal year for the provision of credit loss purpose.

General provision is made for undetermined loan loss on classification of debts. Accordingly, the amount of general provision which have to set up is defined by 0.75% of total balances of debts from group 1 to group 4, except for deposits with domestic credit institutions, foreign bank branches in Vietnam as prescribed by law and deposits at foreign credit institutions and loans, purchases with defined term of valuable papers for other credit institutions, foreign bank branches in Vietnam.

Use of provision

The provision is recorded in the consolidated income statement as an expense and will be used to write off bad debts. The Bank must set up Risk Settlement Committee to write off bad debts if they are classified in Group 5, or if the borrowers are liquidated or bankrupted legal entities, or if individual borrowers have deceased or are missing.

Classification of off-balance-sheet commitments

The Bank classifies guarantee, acceptances of payment and unconditional, irrevocable loan commitments with specific effective date (collectively referred to as "off-balance-sheet commitments") as stipulated in Article 10 of Circular 02. Accordingly, off-balance-sheet commitments are classified by risk levels as follows: Current, Special mention, Substandard, Doubtful and Loss based on overdue status and other qualitative factors.

5.14. Purchased debts

Purchased debts are recognised at the amount which has been paid for debt purchase and classified into the group of risk extent not lower than the group into which such debt had been classified before purchased. If the interest collected including the interest before the Bank's purchase, the interest is recognised using the principle: (i) reduce the value of purchased debts by the interest incurred before the purchase date; (ii) recognise the interest income in the year by the amount incurred after the purchase date.

The Bank classifies loan group and make provision against credit risks for purchased debts in accordance with regulations on provisions making and using against credit risks presented in Note 5.13.

5.15. Loans sold to Vietnam Asset Management Company ("VAMC")

The Bank sells loans to VAMC at the carrying amount in accordance with Decree No. 53/2013/ND-CP effective from 09 July 2013 on "Establishment, structure and operations of Vietnam Asset Management Company", Circular No. 19/2013/TT-NHNN dated 06 September 2013 providing on "Regulations on selling, purchasing and writing-off of bad debts of Vietnam Asset Management Company", Circular No. 14/2015/TT-NHNN and Circular No. 08/2016/TT-NHNN amending, supplementing Circular No. 19/2013/TT-NHNN and Official Letter No. 8499/NHNN-TCKT on "Accounting guidance on selling and purchasing of bad debt transactions between VAMC and credit institutions". Accordingly, selling price equals to the outstanding loan balance minus unused balance of specific provision and receipts are under form of special bonds issued by VAMC.

Upon the sale of loans to VAMC, the Bank writes off loan balances and corresponding specific provisions and recognises special bonds issued by VAMC at par value determined as the difference between the loan balance sold and corresponding specific provision. When receiving loans previously sold to VAMC, the Bank uses annual specific provisions for special bonds to write off bad debts and recognises the difference between provision for credit losses and the remaining outstanding loan balance/bond value in "Other income" of the consolidated income statement.

5.16. Tradina securities

Trading securities are debt, equity and other securities acquired by the Bank for resale in the short-term period (within 1 year) for benefits from price variance.

Trading securities are initially recognised at cost on the transaction date and continuously presented at cost in subsequent years.

Interest earned and dividends received in the holding year of trading securities are recognised in the consolidated income statement on a cash basis.

Trading securities are provided for impairment when their carrying value is higher than the market value in compliance with Circular No. 228/2009/TT-BTC ("Circular 228") issued on 7 December 2009 and Circular No. 89/2013/TT-BTC ("Circular 89") issued on 28 June 2013. In case market prices of securities are not available or cannot be determined reliably, no provision is made. Provision for impairment of trading securities is recognised as "Net gain from dealing of trading securities" in the consolidated income statement.

Provision for credit losses of corporate bonds which are not listed on the stock market or not registered on the unlisted public companies market is made in accordance with Circular 02 as described in Note 5.13.

5.17. Available-for-sale securities

Available-for-sale securities include Debt and Equity securities that are acquired by the Bank for the investment and available-for-sale purposes, not regularly traded but can be sold when there is a benefit. For Equity securities, the Bank neither is the founding shareholder, the strategic partner nor have the ability to make certain influence on establishing and making the financial and operating policies of the investees through a written agreement on assignment of its personnel to the Board of Directors/Management.

Equity securities are initially recognised at cost at the purchase date and continuously presented at cost in subsequent years.

Available-for-sale Debt securities are initially recognised at par value as at the transaction date. Accumulative interest income before the purchasing date (for debt securities with interest paid in arrears) or interest income received upfront awaiting amortisation (for debt securities with interest paid in advance) is recorded in a separate account. Any discount or premium which is the difference between the cost and the amount equal to par value plus (+) accumulative interest income before the purchasing date for debt securities with interest paid in arrears or minus (-) interest income received upfront awaiting amortisation for debt securities with interest paid in advance (if any) is also recorded in a separate account.

Subsequently, available-for-sale Debt securities are recorded at par value less/plus remaining discount/premium (if any) after being amortised to the consolidated income statement using the straight-line method over the remaining term of securities. Interest paid in arrears is recorded as follows: accumulative interest income before the purchasing date is recorded as a decrease in value of such securities and the same amount is credited into the accrued interest income; accumulative interest income after the purchasing date is recognised as the Bank's income based on an accrual basis. Interest received upfront is amortised to the consolidated income statement using the straight-line method over the investment year.

Periodically, available-for-sale investment securities are reviewed for impairment loss. Securities that are classified as credit risk-weighted assets must be made provision according to Circular 02. Securities that are not classified as credit risk-weighted assets are made provision for impairment when their carrying values are higher than their market values determined in accordance with Circular No. 228 and Circular No. 89. In case the market values are undeterminable, no provision will be made. Provision for impairment of investment securities is recorded in the consolidated income statement as "Net gain from dealing of investment securities".

5.18. Held-to-maturity securities

Special bonds issued by VAMC

Special bonds issued by VAMC are fixed-term valuable papers used to purchase bad debts of the Bank. These special bonds are initially recognised at face value at the date of transaction and subsequently carried at the face value during their term. Face value of the special bonds issued equals to the outstanding balance of the debts sold less their unused specific provision.

During their term, the Bank periodically calculates and makes provision annually in accordance with Circular No. 14/2015/TT-NHNN dated 28 August 2015 ("Circular 14") issued by the SBV amending and supplementing some articles of Circular No. 19/2013/TT-NHNN dated 06 September 2013 about purchase, sales and settlement of bad debts of Vietnam Asset Management Company.

In accordance with Circular 14, each year, within 5 consecutive working days prior to the maturity date of special bonds, credit institutions conducting sales of bad debts to VAMC are obliged to fully make a minimum of specific provision of the mentioned year for each special bond using the below formula:

$$X_{(m)} = \frac{Y}{N} \times m - (Z_m + X_{m-1})$$

In which:

- X_(m) is minimum provision for special bonds in the mth year;
- $-X_{m-1}$ is accumulated specific provision for special bonds in the m-1th year;
- Y is face value of special bonds;
- n is term of special bonds (years);
- m is number of years from the bond issuance date to the provision date;
- $\mathbf{Z}_{\mathbf{m}}$ is accumulated bad debt recoveries at the provision date (mth year). Credit institutions should co-operate with VAMC to determine the recovery of the bad debts.

If $(Zm + Xm-1) \ge (Y/n \times m)$, the specific provision $(X_{(m)})$ will be zero (0).

Specific provision for each special bond is recognised in the consolidated income statement in "Provision expense for credit losses". General provision is not required for the special bonds.

Other held-to-maturity securities

Other held-to-maturity securities include Debt securities which are acquired by the Bank with the purpose of earning interest and which the Bank has the intention and ability to hold to maturity. Held-to-maturity investments have fixed or determinable payments and maturity date. In case these securities are sold before maturity, they will be transferred to trading securities or available-for-sale securities.

Held-to-maturity investment securities are recognised similarly to available-for-sale debt securities.

Periodically, held-to-maturity investment securities are subject to impairment review. Securities that are classified as credit risk-weighted assets are made provision in accordance with Circular 02. Securities that are not classified as credit risk-weighted assets will be made provision for impairment when their carrying values are higher than their market values determined in accordance with Circular 228 and Circular 89 issued by the Ministry of Finance. In case the market values are undeterminable, no provision will be made. Provision for impairment is recorded as "Net gain from dealing of investment securities" in the consolidated income statement.

Reclassification

According to Official Letter No. 2601/NHNN-TCKT dated 14 April 2009 by the State Bank of Vietnam, reclassification after transaction date is made not more than once for each group of investment securities. In special cases or in case a large amount of securities has to be reclassified (greater than or equal to 50% total value of the portfolio), the Bank will disclose the effect of reclassification on total assets, liabilities, equity, income and expenses of the Bank in the consolidated financial statements.

5.19. Capital contributions and other long-term investments

Other long-term investments are investments in other entities in which the Bank and its subsidiaries hold less than or equal to 11% of voting rights and investments under business co-operation contracts. These investments are initially recorded at cost at the investment date.

Provision for impairment of other long-term investments

Provision for impairment of other long-term investments is made when the investee is operating at a loss (except that the loss was previously expected in the business plan) in accordance with Circular 228 and Circular 89. Accordingly, provision is the difference between the actual capital contribution of the investors to the investees and their actual owners' equity of the business entity multiplied (x) by the actual holding percentage of the Bank over total actual capital contribution to the investees determined in the investees' balance sheet on the provision-making date.

Provision is reversed when the recoverable amount of the investment increases after the provision is made. Provision is reversed up to the gross value of the investment before the provision is made.

5.20 Repurchase and reverse repurchase agreements

Securities sold under agreements to repurchase at a specific date in the future are not derecognised from the consolidated financial statements. The corresponding cash received is recognised in the consolidated balance sheet as a liability item. The difference between the sale price and repurchase price is treated as interest expense and is amortised on the straight-line basis to the consolidated income statement over the term of the agreement.

Conversely, securities purchased under agreements to resell at a specific date in the future are not recognised in the consolidated financial statements. The corresponding cash paid is recognised in the consolidated balance sheet as an asset item. The difference between the purchase price and resale price is treated as interest income and is amortised on a straight-line basis to the consolidated income statement over the term of the agreement.

5.21 Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost less accumulated depreciation.

The cost of a tangible fixed asset comprises any directly attributable costs of bringing the fixed asset to working condition for its intended use.

Expenditures for improvements and renewals of assets are recorded to the cost of the assets while expenditures for maintenance and repairs are charged to the consolidated income statement as incurred.

When tangible fixed assets are sold or liquidated, their costs and accumulated depreciation are written off from the consolidated balance sheet and any gain or loss resulting from their disposal is included in the consolidated income statement.

Depreciation of tangible fixed assets is calculated on a straight-line basis over the estimated useful life of the assets as follows:

	Years
Buildings and structure	5 - 50
Machineries and equipment	3 - 15
Motor vehicles	6 - 10
Office equipment	3 - 10
Other assets	4 - 10

5.22. Intangible assets and amortisation

Intangible assets are stated at cost less accumulated amortisation.

The cost of an intangible asset comprises any directly attributable costs of bringing the asset to working condition for its intended use.

When intangible assets are sold or disposed, their cost and accumulated amortisation are written off from the balance sheet item and any gains or losses resulting from their disposal are included into the consolidated income statement.

Land use rights which are granted for a definite term are amortised, using the straight-line method over the terms indicated in the land use right certificate. Land use rights which are granted for indefinite term are carried out at cost and not amortised under current regulations.

Computer software is amortised on a straight-line basis over their estimated useful lives from three years to eight years.

5.23. Receivables

Receivables classified as credit risk assets

Receivables classified as credit risk assets are recognised at cost. Overdue receivables are classified and made provision for credit risk by the Bank in accordance with laws and regulations on setting up of provisions and using of provision against credit risk presented in Note 5.13.

Other receivables

Other receivables of the Bank are initially and subsequently recognised at cost.

Provision for other overdue receivables is set up based on the aging schedule of overdue receivables or expected losses which may occur in case where the receivables have not been due for payment but the economic organisation is bankrupted or liquidated; or individual debtor is missing, run away, being prosecuted, under a trial or serving sentences or dead. Provision expense is recognised into "Operating expenses" for the year.

The Bank makes provision for other overdue receivables in compliance with Circular 228 issued by Ministry of Finance as follows:

Overdue	Provision rate
From over six (06) months up to less than one (01) year	30%
From one (01) year up to less than two (02) years	50%
From two years up to less than three (03) years	70%
From three (03) years and above	100%

5.24. Prepaid expenses

Prepaid expenses consist of short-term or long-term prepaid expenses on the consolidated balance sheet which are considered to generate economic benefit in the future and amortised over the years during which the amount are prepaid or economic benefits are generated in relation to these expenses.

5.25. Cash and cash equivalents

For the purpose of the consolidated cash flow statement, cash and cash equivalents comprise cash on hand and gold, deposits with the SBV, demand and time deposits at other credit institutions with an original maturity not exceeding three months and other short-term valuable papers that can be rediscounted with the SBV.

5.26. Due to other credit institutions, due to customers and value papers issued

Deposits from other credit institutions, customer deposits and valuable papers issued are disclosed at the principal amounts outstanding at the end of financial year.

5.27. Payables and accruals

Payables and accruals are recognised for amounts to be paid in the future for goods and services received, whether or not billed to the Bank and its subsidiaries.

5.28. Employee benefits

Post-employment benefits: Post-employment benefits are paid to retired employees of the Bank by the Social Insurance Agency, which belongs to the Ministry of Labour - Invalids and Social Affairs. The Bank is required to contribute to these post-employment benefits by paying social insurance premium to the Social Insurance Agency at the rate of 17.5% of an employee's basic salary on a monthly basis. In addition, the The Bank and its subsidiaries has no further obligation.

Severance allowance and retrenchment benefits

- Severance allowance: The Bank has the obligation, under Article 48 of the Vietnam Labor Code amended on 18 June 2012, to pay allowance to employees who serve for 12 months or more, equal to a half month's salary for each year of employment. The average monthly salary used to calculate the allowance is the average monthly salary of the latest 6 months to resignation. Working time serving as the basis for calculating unemployment allowance shall be the total of actual working time for the The Bank and its subsidiaries subtracting the time when the employees pay unemployment insurance contributions as prescribed by law, and the working time when severance pay is offered by the The Bank and its subsidiaries.
- Retrenchment benefits: The Bank has the obligation, under Article 49 of the Vietnam Labour Code to pay allowance to employees who are retrenched as a result of organisational restructuring or technological changes. In such cases, the The Bank and its subsidiaries shall pay to the employees an allowance for loss of work equivalent to the aggregate amount of one month's salary for each year of employment, but no less than two months' salary.

While the obligations under Section 48 and 49 are compulsory, the implementation of these Sections is subject to specific guidance issued by the Ministry of Finance in implementing circulars. In accordance with Circular No. 180/2012/TT-BTC dated 24 October 2012 providing the guidance of treatment of allowance, the The Bank and its subsidiaries could record an allowance directly in general and administrative expenses when incurred.

• *Unemployment insurance:* According to Circular No. 04/2013/TT-BLDTBXH dated 01 March 2013 amending certain articles of Circular No. 32/2010/TT-BLDTBXH dated 25 October 2010 of the Ministry of Labour - Invalids and Social Affairs, guiding the implementation of certain articles of the Government's Decree No. 127/2008/ND-CP dated 12 December 2008 detailing and guiding the implementing Law on Social Insurance, the Bank its subsidiaries is obliged to pay unemployment insurance at 1% of salary fund of each employee to pay simultaneously to the Unemployment Insurance Fund.

5.29. Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit before tax as reported in the consolidated income statement because it excludes items of income or expense that are taxable or deductible in other year (including loss carried forward, if any) and it further excludes items that are never taxable or deductible.

Deferred tax is recognised on significant differences between carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit and are accounted for using balance sheet method. Deferred tax liabilities are generally recognised for all temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which deductible temporary differences can be utilised.

Deferred tax is calculated at the tax rates that are expected to apply in the year when the liability is settled or the asset realised. Deferred tax is charged or credited to profit or loss, except when it relates to items charged or credited directly to equity, in which case the deferred tax is also dealt with in equity.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same tax authority and the The Bank and its subsidiaries intends to settle its current tax assets and liabilities on a net basis.

The determination of the tax currently payable is based on the current interpretation of tax regulations. However, these regulations are subject to periodic variation and their ultimate determination depends on the results of the tax authorities' examinations.

Other taxes are paid in accordance with the prevailing tax laws in Vietnam.

5.30. Equity and Reserves

Common shares

Common shares are classified as owner's equity. Incurred expenses that directly relate to the issuance of common stocks are recognised as a decrease in owner's equity.

Share premium

When capital is received from shareholders, the difference between selling price and par value is recorded as share premium in owner's equity.

Treasury shares

When issued shares are repurchased, the aggregate amount paid, including expenses that directly relate to the repurchase of shares, after deducting taxes, is recorded as treasury shares and stated as a decrease in owner's equity.

Reserve

Reserves are used for specific purposes and are appropriated from the The Bank and its subsidiaries's profit after tax based on the following regulated ratios:

- Charter capital supplementary reserve: 5% of profit after tax but not exceeding the Bank's charter capital;
- Financial reserve fund: 10% of profit after tax and no specifying maximum limit;
- Compulsory reserve funds are appropriated to supplement charter capital and ensure liquidity capacity of the Bank's subsidiary ("Company"). Statutory reserve funds are appropriated by 5% of annual profit after tax, but not exceeding 10% of the Company's charter capital according to prevailing regulations.
- Bonus fund for the Board of Management, bonus and welfare funds are established in accordance with the Decision approved in the Annual General Shareholders' Meetings.

These reserves are appropriated at the closing date of each financial year.

5.31. Fiduciary assets

Entrusted operations that the Bank bears no risks

The Bank provides services of holding assets in trust or in a fiduciary capacity. Assets held in trust or in a fiduciary capacity are not reported in the consolidated financial statements since they are not assets of the Bank.

Entrusted operations that the Bank bears all risks

The Bank receives entrusted funds from the trustors in order to grant loans to borrowers. The Bank records loan balance granted from entrusted funds in the loans to customers account. The accounting policy for loans granted to customers is in accordance with regulations of the State Bank of Viet Nam as presented in Note 5.13.

5.32. Off-consolidated balance sheet commitments and guarantees

In the ordinary course of business, the Bank always enters into various off-balance sheet financial commitments. These commitments are in the form of loan or bank overdraft which have been approved. The Bank also provides the financial guarantees to guarantee the contract performance process for the third parties. Such transactions are recorded in the consolidated financial statements when they are funded or when related fees are incurred or received.

According to Circular 02 and Circular 09, guarantee amounts, payment acceptance, lending commitments which are irrevocable (hereinafter referred to as off-balance sheet commitments) must be classified at specific time as prescribed in Article 10 of Circular 02 for management and supervision of quality of credit extension activity. Accordingly, off-balance sheet commitments are graded from group 1 to group 5 by using the following risk classifications: Current, Special-mentioned, Substandard, Doubtful and Loss based on the overdue status and other qualitative factors.

5.33. Leases

Leases where substantially all the rewards and risks of ownership of assets remain with the leasing company are accounted for as operating leases. Rental charges applicable to such operating leases are charged to the consolidated income statement as incurred over the lease term.

5.34. Related parties

The parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making decisions on financial and operating policies. A party is considered as a related party with the Bank and its subsidiaries if:

- (a) Directly or indirectly through one or more intermediaries, the party:
- Has capability to control the Bank or is controlled by the Bank and its subsidiaries (including the holding company and subsidiaries):
 - Has contributed capital to the Bank and its subsidiaries that accordingly, gives it significant influence over the Bank;
 - Has joint control over the Bank and its subsidiaries;
 - (b) The party is a joint venture in which the Bank and its subsidiaries is a venture;
- (c) The party is a close member of the Board of Directors, Board of Supervisors and Board of Management of the Bank and its subsidiaries;
 - (d) The party is a close member of the family of any individual referred to in (a) or (c);
- (e) The party is a bank that is controlled, jointly controlled or significantly influenced by, or of which, significant voting power in such Bank resides with, directly or indirectly, any individual referred to in (c) or (d).

5.35. Offsetting

Financial assets and financial liabilities are offset and reported at the net amount in the consolidated balance sheet if, and only if, the Bank has an enforceable legal right to offset financial assets against financial liabilities and the Bank has intention to settle on a net basis, or the realization of the assets and settlement of liabilities is made simultaneously.

5.36. Financial instruments

Initial recognition

- Financial assets: At the date of initial recognition, financial assets are recognised at cost plus transaction costs that are directly attributable to the acquisition of the financial assets. Financial assets of the Bank comprise cash and gold, balances with the State Bank of Vietnam, placements with and loans to other credit institutions, trading securities, loans to customers, investment securities, capital contribution and long-term investments, investment property and other financial assets.
- Financial liabilities: At the date of initial recognition, financial liabilities are recognised at cost plus transaction costs that are directly attributable to the issue of the financial liabilities. Financial liabilities of the Bank comprise borrowings from the State Bank of Vietnam, deposits and borrowings from other credit institutions, deposits from customers, derivatives and other financial liabilities, valuable papers issued and other financial liabilities.

Subsequent re-measurement

The Bank and its subsidiaries has not assessed fair value of its financial assets and liabilities as at the balance sheet date since there is no comprehensive guidance under Circular No. 210/2009/TT-BTC issued by the Ministry of Finance on 06 November 2009 ("Circular 210") and other relevant prevailing regulations to determine fair value of these financial assets and liabilities. While Circular 210 refers to the application of International Financial Reporting Standards ("IFRS") on presentation and disclosures of financial instruments, it did not adopt the equivalent guidance for the recognition and measurement of financial instruments, including application of fair value, in accordance with IFRS. Accordingly, the financial instruments are subsequently re-measured at cost.

6. CASH, GOLD AND GEMS STONE

	Closing balance Million VND	Opening balance Million VND
Cash on hand in VND	1,570,193	1,506,783
Cash on hand in foreign currencies	938,715	1,088,994
Gold	46,676	59,311
	2,555,584	2,655,088

7. BALANCES WITH THE STATE BANK OF VIETNAM ("SBV")

	Closing balance Million VND	Opening balance Million VND
Current account at the SBV		
In VND	4,864,849	7,615,137
In foreign currencies	22,094	1,620,409
	4,886,943	9,235,546

Balances with the State Bank of Vietnam ("the SBV") include current accounts and compulsory reserves. During the year, compulsory reserves in VND and current accounts in foreign currencies earn interest at rates of 1.20% p.a. and 0.05% p.a., respectively.

The compulsory reserve per month is determined by the average compulsory reserve deposit balance of previous month multiplying by compulsory reserve ratios, respective to deposit's terms and currencies. The Bank's average demand deposit balance per month at the State Bank of Vietnam should be not lower than the required compulsory reserve.

The compulsory reserve rates at the reporting date were as follows:

Currency and term	Closing balance	Opening balance
Demand deposits and term deposits with maturity term less than 12 months in VND	3%	3%
Term deposits with maturity term from 12 months and above in VND	1%	1%
Demand deposits and term deposits with maturity term less than 12 months in foreign currencies	8%	8%
Term deposits with maturity term from 12 months and above in foreign currencies	6%	6%

During the year, the Bank has complied with the notification of the SBV regarding compulsory reserves.

8. PLACEMENTS WITH AND LOANS TO OTHER CREDIT INSTITUTIONS

	Closing balance Million VND	Opening balance Million VND
Placements with other credit institutions	28,268,931	23,997,568
Loans to other credit institutions	-	50,778
	28,268,931	24,048,346

8.1. Placements with other credit institutions

	Closing balance Million VND	Opening balance Million VND
Demand deposits	26,888,671	22,220,073
In VND	21,334,441	20,254,041
In foreign currencies	5,554,230	1,966,032
Term deposits	1,380,260	1,777,495
In VND	654,225	431,995
In foreign currencies	726,035	1,345,500
	28,268,931	23,997,568

Demand deposits with other credit institutions include:

	Closing balance Million VND	Opening balance Million VND
Demand deposits with domestic credit institutions in VND	21,334,441	20,254,041
Demand deposits with domestic credit institutions in foreign currencies	5,000,592	1,025,292
Demand deposits with oversea credit institutions in foreign currencies	553,640	940,740
	26,888,671	22,220,073

Term deposits with other credit institutions include:

	Closing balance Million VND	Opening balance Million VND
Term deposits with domestic credit institutions in VND	654,225	431,995
Term deposits with domestic credit institutions in foreign currencies	726,035	1,345,500
	1,380,260	1,777,495

Annual interest rates of deposits in other credit institutions at the year end are as follows:

	Closing balance Million VND	Opening balance Million VND
Demand deposits in VND	0.00% - 1.00%	0.00% - 1.00%
Demand deposits in foreign currencies	0.00% - 1.80%	0.00% - 0.15%
Term deposits in VND	4.70% - 10.50%	
Term deposits in foreign currencies	0.01% - 2.90%	1.60% - 2.60%

8.2. Loans to other credit institutions

	Closing balance Million VND	Opening balance Million VND
In VND		50,778
	-	50,778

Annual interest rates of loans to other credit institutions at the year-end are as follows:

	Closing balance	Opening balance
In VND		5.00%

8.3. Term deposits with and loans to other credit institutions by quality

Term deposits with and loans to other credit institutions by quality are as below:

	Closing balance Million VND	Opening balance Million VND
Current	1,380,260	1,828,273
Term deposits with other credit institutions	1,380,260	1,777,495
Loans to other credit institutions	-	50,778

9. TRADING SECURITIES

Number of treasury shares	4,385,457	4,385,457
Ordinary shares	4,385,457	4,385,457
Number of outstanding shares	1,518,783,353	1,425,094,647
Ordinary shares	1,518,783,353	1,425,094,647
Par value of outstanding shares (VND)	10,000	10,000

The Bank has one kind of common share that has no fixed interest. The shareholders of common shares are entitled to receive dividends as declared from time to time and are entitled to one vote per share at the Bank's shareholders meetings. All shares rank equally with regard to the Bank's residual assets.

In 2018, the Bank successfully offered 93,688,706 ordinary shares. Accordingly, the total number of ordinary shares sold to the public was 1,523,168,810 shares, and the charter capital increased to VND 15,231,688,100,000.

24.2. Reserves of the Bank

The Bank makes the statutory reserves in compliance with Law on Credit Institutions No. 47/2010/QH12, Decree No. 57/2012/ND-CP and the Charter of the Bank. Statutory reserves are made based on the Bank's performance of the year as follows:

	Basis for calculation	Maximum balance	Purpose
Supplementary capital reserve	5% of profit after tax	100% of charter capital	Supplement capital, invest in construction, purchase fixed assets for business operations
Financial reserve	10% of profit after tax	Not defined	Cover remaining losses of assets incurred in business operations
Other reserves	Subject to resolution of the Annual general meeting of shareholders	Not defined	Subject to resolution of the Annual general meeting of shareholders

24.3. Dividends

During the year, the Bank has neither declared nor paid dividends to the shareholders.

35. CORPORATE INCOME TAX EXPENSE

Current corporate income tax expense

	Current year Million VND	Prior year Million VND
Current corporate income tax expense		
- Corporate income tax expense based on current taxable profit	53,888	36,771
- Adjustment of previous years corporate income tax expense to current corporate income tax	765	1,696
Total current corporate income tax expense	54,653	38,467

The current corporate income tax for the year is calculated as follows:

	Current year Million VND	Prior year Million VND
Profit before tax from operating	228,798	163,992
Adjustments due to consolidation of financial statements	19,477	8,161
Profit before tax after adjustments on consolidation of financial statements	248,275	172,153
Adjustments:		
Less:		
Non-taxable dividends income	(21,108)	(14,692)
Other adjustments	(21)	(10)
Add:		
Non-deductible expenses	42,291	26,404
Taxable profit	269,437	183,855
Taxable profit at normal tax rate of 20%	269,437	183,855
Current corporate income tax expense of the Bank and its subsidiaries	53,888	36,771

The Bank and its subsidiaries have the obligation to pay corporate income tax at the rate of 20% of current year taxable profit.

Tax declarations of the Bank and its subsidiaries are subject to examination by the tax authorities. Due to the ambiguity associated with the applicability of tax laws and regulations in Vietnam, amounts reported in the consolidated financial statements could be changed at a later date upon final determination by the tax authorities.

Deferred corporate income tax expense

Expense paid to Direct Money	-	-	-	-
Deferred tax asset/Deferred tax expense	6,554	4,543	2,011	(1,065)

36. BASIC EARNINGS PER SHARE

Basic earnings per share are calculated by dividing net profit after tax attributable to ordinary shareholders of the Bank (after adjustments for appropriation of bonus and welfare funds) by the weighted average number of ordinary shares outstanding during the year.

Data used in computation of basic earnings per share of the Bank is as follows:

	Current year	Prior year
Net profit after tax attributable to the common shareholders to calculate basis earnings per share (million VND)	169,154	120,256
Decrease due to appropriation to Bonus and Welfare funds (million VND) (*)	(79,444)	(62,589)
Net profit after tax attributable to the common shareholders to calculate basis earnings per share (million VND)	89,710	57,667
Weighted average number of outstanding ordinary shares (shares)	1,442,805,685	1,425,094,647
Basic earnings per share (VND/share)	62	40

^(*) Appropriation to Bonus and Welfare funds in 2018 is estimated by one month of average salary in 2018.

37. CASH AND CASH EQUIVALENTS

Cash and cash equivalents included in the consolidated cash flow statement comprise the following amounts on the consolidated balance sheet:

	Closing balance Million VND	Opening balance Million VND
Cash and gold	2,555,584	2,655,088
Balances with the State Bank of Vietnam	4,886,943	9,235,546
Demand deposits with other credit institutions (Note 8.1)	26,888,671	22,220,073
Deposits with other credit institutions with term of three months or less (Note 8.1)	726,035	1,350,500
	35,057,233	35,461,207

Additional information for cash flows:

	Current year Million VND	Prior year Million VND
Significant non-cash transactions excluded from the consolidated cash statement:	flow	
Debts sold to VAMC for special bonds (Note 13.4)	(8,109,000)	(12,762,438)
Settlement of special bonds	1,410,985	2,706,680
Income from selling debts	306,000	913,900
Costs from debt selling operations	(437,537)	-
Selling debts	(33,197,041)	(1,309,480)
	(40,026,593)	(10,451,338)

38. EMPLOYEES' INCOME

	Current year	Prior year
I. Total average number of employees (people)	6,798	5,957
II. Employees' income (million VND)		
1. Total salary	1,276,020	997,534
2, Other income	129,144	190,728
3. Total income (3=1+2)	1,405,164	1,188,262
4. Average salary per month (million VND/person)	15.64	13.95
5. Average income per month (million VND/person)	17.23	16.62

39. CONCENTRATION OF ASSETS, LIABILITIES AND OFF-BALANCE SHEET ITEMS BY GEOGRAPHICAL REGIONS

	Domestic Million VND	Overseas Million VND	Total Million VND
Assets as at 31 December 2018			
Placements with and loans to other credit institutions	27,715,291	553,640	28,268,931

40.2. Secondary segment report: by business sector

The Board of Management of the Bank considered, assessed and determined that it is not necessary to prepare a segment report by business lines since the main operations of the Bank are mobilizing and receiving short, medium and long-term deposits from organisations and individuals; providing short, medium and long-term loans to organisations and individuals and other banking services as allowed by the SBV. The business performance is presented in the revenue and operating expense in the consolidated income statement.

41. ASSETS AND VALUABLE PAPERS PLEDGED, DISCOUNTED AND RE-DISCOUNTED

41.1. Assets and valuable papers of customers and other credit institutions pledged, discounted and re-discounted

(a) Types and book value of collaterals of customers at the year end are as follows:

	Book	value
	Closing balance Million VND	Opening balance Million VND
Real estates	432,613,069	376,910,649
Valuable papers	31,645,121	33,759,802
Motor vehicles	5,292,694	4,444,742
Inventories	1,515,417	1,763,513
Machineries and equipment	257,767	314,375
Other assets	124,653,708	68,771,790
	595,977,776	485,964,871

(b) Assets and valuable papers of credit institutions pledged and re-discounted:

	Face	value
	Closing balance Million VND	
Valuable papers (face value)	-	50,000

41.2. The Bank's assets and valuable papers pledged, discounted and re-discounted at other credit institutions

Details of the Bank's assets and valuable papers pledged, discounted and re-discounted at other credit institutions at the vear end are as follows:

	Closing balance Million VND	•
Government bonds (Note 13.1, Section a)	29,850,404	38,486,063
	29,850,404	38,486,063

42. RISK MANAGEMENT POLICY FOR FINANCIAL INSTRUMENTS

The Bank's objective is to manage its risk adequately within the approved limits. Therefore, the use of financial instruments, including receiving deposits from customers and investing in high-quality assets to achieve sufficient interest margins, is the core activity of the Bank. From risk management perspective, this primarily involves maintaining loans to commercial and retail borrowers of varied creditworthiness, in both local and foreign currencies, as well as off-balance sheet commitments such as guarantees and letters of credit. The Bank also places its mobilized funds in loans to other credit institutions. Foreign exchange and interest rate exposures are managed through the use of position limits, avoiding undue concentrations and entering into counterbalancing positions in order to offset exposures.

By holding high quality financial instruments, the Bank is able to manage significant risks in its operating activities and to maintain an adequate liquidity position.

For credit risk management purpose, the Bank has effectively utilised its Credit management manual providing regulations and requirements for lending and guidance to standardise the credit activities at the Bank. Liquidity risk is limited by maintaining a large amount of high-quality financial instruments, cash and cash equivalents in the form of Nostro account, balances with the SBV and placements with other credit institutions. Prudential ratios are also used in liquidity risk management. The Bank assesses the interest rate gap and compares it to the benchmark of domestic and foreign markets on a regular basis in order to timely adapt with unforeseen movements. Additionally, the more effective utilisation of internal risk management enables the Bank to effectively oversee changes in capital and reduce potential mistakes and also unnecessary procedures.

43. CREDIT RISK

Credit risk is the risk that the Bank will incur a loss because its customers or counterparties fail to discharge their contractual obligations.

The Bank manages and controls credit risk by setting limits on the amount of risk it is willing to accept for individual counterparties and for geographical and industry concentrations, and by monitoring exposures in relation to such limits.

The Bank has established a credit quality review process to provide early identification of possible changes in the financial position and creditworthiness of counterparties based on qualitative and quantitative indicators. Counterparty limits are established by the use of a credit rating system, which assigns each counterparty a risk rating. Risk ratings are subject to regular revision.

The actual rate of balances with the SBV, placements with and loans to other credit institutions, loans to customers, deposits and borrowings from other credit institutions and deposits from customers are presented at *Note 7, Note 8, Note 10, Note 18* and *Note 19*, respectively.

43.1. Financial assets neither past due nor impaired

The Bank's financial assets which are neither past due nor impaired comprise loans to customers classified as Current loans in accordance with Circular 02 and Circular 09; securities, receivables and other financial assets which are neither past due nor require provision in accordance with Circular No. 228 and Circular No. 89.

The Bank believes that it can fully and timely recover these financial assets in the near future.

43.2. Financial assets past due but not impaired

The age of financial assets past due but not impaired are presented below:

		Ove	erdue	
	Less than 90 days Million VND	From 91 to 180 days Million VND	From 181 to 360 days Million VND	Over 360 days Million VND
Loans to customers	289,075	18,903	50,543	232,910

Loans to customers past due but not impaired are those which are overdue but not required to make provision as the Bank currently holds adequate collaterals such as responding deposits, real estates, movable assets, valuable papers and other types of collaterals.

44. MARKET RISKS

44.1. Interest rate risk

Interest rate risk in bank is the risk of adverse changes in interest rates on income, asset value, value of payable debts and off-balance commitment value of the Bank arising from:

- Difference in time to fix new interest rates or interest rate re-pricing periods;
- Change the relationship between interest rates of different financial instruments but at the same time of maturity;
- Change the relationship between interest rates at different terms
- Impact from interest rate options, products with interest rate options.

Re-pricing term of the effective interest rate is the remaining year from the date of the consolidated financial statements to the nearest re-pricing date of interest rate applicable to assets and equity.

The following assumptions and conditions are used in analysis of the re-pricing year of interest rates of the Bank's assets and liabilities:

- Cash and gold; investment and trading in equity securities; long-term investment and other assets (including fixed assets, investment properties and other assets) are classified as non-interest bearing items.
 - The re-pricing term of balances with the SBV is considered as up to 1 month.
- The re-pricing term of investment securities is considered based on the re-pricing term of each kind of investment securities at the year end.
- The re-pricing term of placements with and loans to other credit institutions; loans to customers; borrowings from the Government and SBV; deposits and borrowings from other credit institutions; deposits from customer are determined as follows:
 - Items which bear fixed interest rate during the contractual term: The re-pricing term is determined based on the time to maturity from the balance sheet date.
 - Items which bear floating interest rate: The re-pricing term is determined based on the time to the nearest interest rate repricing date from the balance sheet date.
- The re-pricing term of valuable papers is determined based on the time to the nearest interest rate re-pricing date from the balance sheet date.
- The re-pricing term of grants, trusted funds and borrowings at risk of the credit institution is determined based on the repricing date as stated in the contracts (if any) or actual maturity dates.
- With the prudent point of view that maturity term of deposits which were mobilised from the First market close before the financial reporting date (being due but not yet settled by the customers), is the liabilities that the Bank and its subsidiaries must make the highest priority to settle payment for counter parties or clients. Accordingly, the entire balances of these mobilised items were set to re-pricing immediately to ensure measuring timely and fully the impact of market interest to the Bank's profit.

Interest management policy of the Bank:

For interbank lending (short-term), investment interest rate is based on the fluctuation of market and the cost of fund of the Bank.

The Bank forecasts fluctuation of market interest rate and the fund balancing ability in order to make appropriate investment decisions.

Interest rate for fund mobilisation is determined based on the following principles: market price, business orientation of the Bank's Management, the Bank's balance of fund and regulations of the State Bank of Vietnam. The Bank's fund mobilisation mainly has short period of interest rate re-pricing.

Interest rate for credit activities is determined at the rate that sufficiently recovers cost of capital, operating expenses, risk analysis, value of collaterals, market interest rates, competitiveness and business effectiveness of the Bank. The Head Office sets the interest rate floor for each year; business units proactively and appropriately determine interest rates applied to customers for each year but no less than the interest rate floor based on judgment and analysis of credit risk and the given profit target to be achieved.

The Bank manages interest rate risk at 2 levels: transaction level and portfolio level.

Management tools and interest monitoring of the Bank:

- Adjust the term of interest re-pricing of loans in accordance with the term of revaluating of the captital. Control the difference of the term of revaluating in the permitted extent;
- All loan contracts must have provisons of interest risk hedging to ensure that the Bank always in the active position to face
 with the unsual changes of the market, loan interest rate must ensure the accurate reflection of capital mobilisation expenses
 of the Bank;
 - Monitor through fund transfer pricing (FTP).

With experience and quick adaptability of the Bank's Board of Management, the Bank has managed its mobilisation as well as lending interest rates in a prudent and flexible manner to ensure business efficiency and increase the market share.

*) Include the debt purchased - gross on the consolidated balance shee

44.1. Interest rate risk (Continued)

Interest rate sensitivity

With the assumption that all other variables are held constant, movements in the interest rates of floating-interest rate-loans would affect the Bank's profit before tax and equity for the year as follows:

	Increase/(decrease) in basic point	Effect on profit before tax (in the next month)	Effect on equity
Exchange	+10	2,281	352,000
Exchange	-10	(2,281)	(352,000)

The increase/(decrease) in basic point used to analyze the interest rate sensitivity is assumed according to observable conditions of the current market.

44.2. Currency risk

Currency risk is the risk that the value of financial instruments will fluctuate due to changes in foreign exchange rates.

The Bank was incorporated and operates in Vietnam, so VND is the reporting currency. The major currency in which the Bank transacts is also VND. However, some transactions are executed by gold or denominated in USD, EUR and other foreign currencies. The Bank's management has set limits to control the positions of the currencies. Positions are monitored on a daily basis and hedging strategies are used to ensure that positions of the currencies are maintained within established limits.

The exchange rates of key foreign currencies to VND at the reporting date are presented at Note 50.

Classification of assets and liabilities denominated in foreign currencies translated into VND as at year end is as follows:

	EUR equivalent Million VND	USD equivalent Million VND	Gold equivalent Million VND	Other currencies equivalent Million VND	Total Million VND
Assets					
Cash and gold	89,137	646,375	46,676	203,204	985,392

On and off-balance sheet foreign exchange position	294,699	1,570,636	53,855	686,582	2,605,772

44.3. Liquidity risk

Liquidity risk is the risk which the Bank has difficulties in meeting the obligations of financial liabilities. Liquidity risk occurs when the Bank cannot afford to settle debt obligations at the due dates in the normal or stress conditions. To manage the liquidity risk exposure, the Bank has diversified the mobilisation of deposits from various sources in addition to its basic capital resources. In addition, the Bank has established policy for control of liquidity assets flexibly; monitor the future cash flows and daily liquidity. The Bank has also evaluated the estimated cash flows and the availability of current collateral assets in case of obtaining more deposits.

The maturity term of assets and liabilities represents the remaining period of assets and liabilities as calculated from the balance sheet date to the settlement date in accordance with contractual terms and conditions.

The following assumptions and conditions are applied in the analysis of maturity of the Bank's assets and liabilities:

- Balances with the SBV are classified as demand deposits which include compulsory deposits. The balance of compulsory deposits depends on the proportion and terms of the Bank's customer deposits and regulations of the SBV in each period.
 - The maturity term of investment securities is calculated based on the maturity date and liquidity of each kind of securities.
- The maturity term of placements with and loans to other credit institutions; and loans to customers is determined on the maturity date as stipulated in contracts. The actual maturity term may be altered because loan contracts may be extended.
- The maturity term of long-term investments is considered as from one to five years because these investments do not have specific maturity date.
- The maturity term of fixed assets is classified in the above five-year category as most of the Bank's fixed assets are buildings, structures and land use rights.
- The maturity term of deposits and borrowings from other credit institutions and customer deposits are determined based on features of these items or the maturity date as stipulated in contracts. Vostro account and demand deposits are transacted as required by customers, and therefore, being classified as current accounts. The maturity term of borrowings and term deposits is determined based on the maturity date in contracts. In fact, these amounts may be rotated, and therefore, they last beyond the original maturity date.

44.3. Liquidity risk (Continued)

In addition to the liquidity risk management based on the maturity year as presented above, the Bank has focused on managing the liquidity risk in accordance with the active liquidity method together with measuring and controlling tightly the renewal rate of customer deposits. The Bank has set the warning level for the renewal rate of deposits to ensure the rate is controlled under the Bank's objectives. The liquidity risk was managed under the renewal rate of customer deposits as at 31 December 2018 as follows:

	Overdue	due			Current			
	Up to 3 months Million VND	Above 3 months Million VND	Up to 1 month Million VND	1 - 3 months Million VND	3 - 12 months Million VND	1 - 5 years Million VND	Above 5 years Million VND	Total Million VND

(*) Include the debt purchased gross on the consolidated balance sheet.

The Bank applies the possibility of renewal of customer deposits at the rate of 80% (According to the Bank's statistics, the renewal rate in 2018 ranges from 80% to 85%).

136

44.3. Liquidity-risk (Continued)

44.4. Market price risk

Except for the assets and liabilities presented above, the Bank has no other market price risks which have risk level accounting for 5% of net profit or the value of assets, liabilities accounting for 5% of total assets.

45. CONTINGENT LIABILITIES AND COMMITMENTS

In the normal course of business, the Bank is a party to financial instruments which are recorded as off-balance sheet items. These financial instruments mainly comprise guarantee commitments and commercial letters of credit. These instruments involve elements of credit risk out of the items recognised in the consolidated balance sheet.

Credit risk for off-balance sheet financial instruments is defined as the possibility of sustaining a loss because any other party to a financial instrument fails to perform in accordance with the terms of the contract.

Financial guarantees are conditional commitments issued by the Bank to guarantee the performance of a customer to a third party including guarantee for borrowings, settlement, contract performance and bidding. The credit risk involved in issuing guarantees is essentially the same as that involved in extending loans to other customers.

Commercial at sight letters of credit represents a financing transaction by the Bank to its customer who is usually the buyer/importer of goods and the beneficiary is typically the seller/exporter. Credit risk from this type of letters of credit is limited as the merchandise shipped serves as collateral for the transaction.

Deferred payment letters of credits represent the amounts at risk should the contract be fully effected but the client defaults on repayment to the beneficiary. Deferred payment letters of credit that are defaulted by clients are recognised by the Bank as granting of a compulsory loan with a corresponding liability representing the financial obligation of the Bank and its subsidiaries to pay the beneficiaries and to fulfill the guarantor obligation.

Guarantee commitment is the commitment issued by the Bank to guarantee the performance of the customers to a third party including guarantee for borrowings, settlement, performing contracts and bidding. Credit risk of the borrowing guarantee, settlement guarantee in general is essentially the same as that involved in extending loans to other customers, while risk arising from other guarantees is lower.

Risk of the Letter of credit is usually lower, in condition that the Bank can control goods. Deferred Letter of credit may have contingent risk higher than at sight Letter of Credit. Deferred payment letters of credit that were defaulted by clients are recognised by the Bank as granting of a compulsory loan with a corresponding liability representing the financial obligation of the Bank to pay the benificiaries and to fulfill the guarantor obligation.

The Bank requires margin deposits to support credit-related financial instruments when it is deemed necessary. The margin deposit required varies from nil to 100% of the value of a commitment granted, depending on the creditworthiness of clients as assessed by the Bank.

The currency trading commitments are commitments to purchase, sell at spot and currency swap commitments. Commitments to purchase, sell at spot are commitments to purchase, sell currency according to exchange rate dealt and make payment within 2 (two) days since transaction date. Currency swap commitments are commitments to purchase and sell with the notional principal amount (only two currencies used for transaction) to one client, including one transaction for term payment at spot and one transaction for term payment in the future with the exchange rate of both transactions determined at spot transaction date.

Details of outstanding commitments and contingent liabilities as at year-end are as follows:

	Closing balance Million VND	Opening balance Million VND
Guarantees for loans	50,436	74,531
Commitments on trading foreign currencies	23,199,575	29,573,214

Less: Margin deposits	(210,171)	(37,692)
Contingent liabilities and commitments	33,248,658	43,170,886

46. FINANCIAL INSTRUMENT

Capital risk management

The Bank manages its capital to ensure that the Bank will be able to continue as a going concern while maximizing the return to shareholders through the optimization of the debt and equity balance. The capital structure of the Bank consists of net debt, equity attributable to the Bank's shareholders (comprising contributed capital, reserves and retained earnings).

Significant accounting policies

Details of the significant accounting policies and methods adopted (including the criteria for recognition, the bases of measurement, and the bases for recognition of income and expenses) for each class of financial assets, financial liabilities and equity instrument are disclosed in Note 5.

The carrying amount and fair value of the Bank's financial instruments as at 31 December 2018 are presented as below:
